# LL.B. ADMISSION TEST – 2022

Question Booklet Sl. No.

Date of Exam. :	Center's Name : _____
Duration : <b>90 Minutes</b>	Roll No. : _____
Max. Marks : <b>150</b>	OMR Sheet No. : _____
	Date of Birth : _____

## INSTRUCTIONS TO CANDIDATES

- No clarification on the Question Paper can be sought. Answer the questions as they are.**
- There will be **150** Multiple Choice Questions (MCQ) of one mark each to be answered in the OMR Response Sheet only. **Total marks are 150. Answer ALL the Questions.**
- There will be Negative Marking for Multiple Choice Questions (MCQ). For every wrong answer 0.25 marks will be deducted.**
- Candidates have to indicate the most appropriate answer by darkening one of the four responses provided, with **only BLACK/BLUE BALL POINT PEN** in the OMR Response Sheet.

**Example :** For the question, "Where is the Taj Mahal located ?"

- a) Kolkata      b) Agra      c) Bhopal      d) Delhi

**Right Method**

**Wrong Methods**

M

- Answering the question by any method other than the method mentioned above shall be considered wrong answer.
- More than one response to a question shall be counted as wrong answer.
- The candidate shall not write anything on the OMR Response Sheet and Answer Booklet other than the details required and in the spaces provided for.
- After the examination is over, the candidate can carry the Question Booklet along with candidate's copy of the OMR Response Sheet. Candidate will hand over the original OMR Response Sheet to the invigilator.
- The use of any unfair means by any candidate will result in the cancellation of his/her candidature.
- Impersonation is an offence and the candidate, apart from disqualification, may have to face criminal prosecution.**
- Electronic gadgets like mobile phones, digital watch, pagers and calculators etc. are strictly not permitted inside the Test Centre/Hall.**
- The candidates shall not leave the hall before the end of the Test.**

**BREAK-UP OF MARKS**

<b>Section</b>	<b>Subject</b>	<b>Marks</b>	<b>Q. No.</b>	<b>Page No.</b>
A	English	50	1 – 50	3 – 14
B	Current Affairs and General Knowledge	30	51 – 80	15 – 18
C	Logical Reasoning	70	81 – 150	19 – 38
<b>Total Marks</b>		<b>150</b>		

**SECTION – A : ENGLISH**

- I. Read the excerpt from a ruling of the Court (Civil Action: American Library Association v. U.S.A.) and answer the following questions by choosing the most appropriate answer.**

Under strict scrutiny, a public library's use of filtering software is permissible only if it is narrowly tailored to further a compelling government interest and no less restrictive alternative would serve that interest. We acknowledge that use of filtering software furthers public libraries' legitimate interests in preventing patrons from accessing visual depictions of obscenity, or in the case of minors, material harmful to minors. Moreover, use of filters also helps to prevent patrons from being unwillingly exposed to patently offensive, content on the Internet.

1. Select which of the following assumptions is the ruling of the Court is based on.
  - a) Filtering software is the preferred alternative by the patrons of public libraries.
  - b) Filtering software is the most restrictive of all the alternatives used in public libraries.
  - c) Filtering software is the only tool that can be scrutinised by the public libraries.
  - d) Filtering software safeguards the interests of the patrons of public libraries.
  
2. What, according to the passage, is the primary purpose of filtering software within a public library ?
  - a) Permit the use of classified materials.
  - b) Check the use of all visual content of a library.
  - c) Record the number of searches made by patrons.
  - d) Prevent the access to inappropriate content.
  
3. Which of the following words is an antonym to the word “compelling” used in the text ?
  - a) singular                      b) strange                      c) weak                      d) popular

- II. Read the following news post and answer the questions by choosing the most appropriate answer.**

**INDIA'S MARINE EXPORTS REACH ALL TIME HIGH OF \$ 7,740 MILLION**

Vijayawada: Exports of marine products from India have reached an all-time high of US \$ 7,740 million in 2021-22 against the targeted US \$ 7,809 million fixed by the centre.

Marine Products Exports Development Authority joint director A. Jeyabal in a statement here on Friday said India's exports of marine products grew 30 percent compared to 2020-21 in value terms. The compound annual growth rate of seafood exports during the past decade has been 8.23 percent, he pointed out.

Jeyabal explained that India exported marine products to 121 countries during 2021-22, the US being the top destination with exports worth US \$ 3,315 million in 2021-22 against the target of \$ 3,021 million.

China and Japan stood at number two and three positions respectively. All three top destinations of Indian marine exports constitute 63 percent of India's exports in value terms.

4. The phrase “an all-time high” indicates that India’s marine
- export rate has never been so high.
  - exports have grown less expensive.
  - export rate increases with each month.
  - exports have reached their highest limit.
5. Substitute the underlined phrase with the option closest in meaning.  
“The compound annual growth rate of seafood exports during the past decade has been 8.23 percent, he pointed out.”
- calculated
  - announced
  - specified
  - shared
6. Which of the following statements are true for the given text ?
- 2022 is fast becoming the most successful year for Indian exports, in terms of marine products.
  - The director of “Marine Products Exports Development Authority” is Mr. A. Jeyabal.
  - Mr. A. Jeyabal is sure that India will grow as an exporter of marine products.
  - There is most demand for India’s marine products in the US.
- (i), (ii) and (iii)
  - (i) and (iv)
  - (ii), (iii) and (iv)
  - (i) and (ii)
7. The most appropriate by-line for the article would be
- Glowing Prospects
  - A Legacy
  - A Befitting Tribute
  - Profiting from Sustainability
8. It can be inferred from the text that
- All of India’s marine exports to Japan and China are done from Vijayawada.
  - More than half of India’s marine exports go to the US, China and Japan, in value terms.
  - India is the leading exporter of marine goods to 121 countries.
  - India reached the proposed sales target determined by the centre in the year 2021-22.
9. Select the sentence that is the most appropriate conclusion for the given text.
- Several exports promotion schemes for Fisheries have been implemented by the Marine Products Export Development Authority (MPEDA), a statutory body set up in 1972.
  - The twin Godavari districts contributed to 50 per cent exports of the Vannamei shrimp.
  - Despite the heavy odds faced by the sector, India’s marine products exports reached a record high.
  - With a budget of Rs. 20,050 crores, this is the biggest ever investment to bring about a Blue Revolution through sustainable and responsible development of the fisheries sector in India.

**III. Read the book descriptions for three different books up for sale online and answer the questions by choosing the correct options.**

<p>The <i>On Being a Veterinarian</i> Series gives pre-vet and veterinary students a glimpse into what it's really like to be a small animal veterinarian. Each book in the series provides insight on a different aspect of small animal veterinary medicine to help future veterinary doctors better prepare for the challenges of this career. Book puts the reader in the doctor's shoes for a day to illustrate the importance of emotional resilience. Tools for building resilience are provided, as are scientific explanations for how and why they work.</p>	<p><i>So, You Want to be a Veterinarian</i> is suggested reading for aspiring veterinarians, their parents, and their mentors. It succinctly describes colleges of veterinary medicine and their admission requirements, application procedures, curriculums, faculties, and facilities, and provides information that increases the odds of success in the admission process. It goes on to describe the veterinary profession and its multiple practice types, species and disciplinary specialties, and employment opportunities in industry, government, academy, and the military.</p>	<p><i>I Want to be a Veterinarian</i> is part of a new <i>I Can Read</i> series that introduces young readers to important community helpers. This Level One <i>I Can Read</i> is perfect for children learning to sound out words and sentences. Whether shared at home or in a classroom, the short sentences, familiar words, and simple concepts of Level One books support success for children eager to start reading on their own. For anyone looking for books about community helpers for kids, this book is a great choice as it is bright and upbeat and feature characters who are diverse in terms of gender, race, age, and body type.</p>
--	---	--

10. By using the phrase “gives a glimpse into”, the text suggests that *On Being a Veterinarian* Series
- imparts extensive knowledge about the personal and professional aspects of a veterinarian’s life.
  - gives detailed descriptions about the veterinary profession and its multiple practice types.
  - offers comprehensive health advice to small animal veterinary doctors.
  - provides salient features of small animal veterinary medicine to help prepare future doctors for the difficulties of their profession.
11. A ‘small animal veterinarian’ involves dealing with
- farm animals
  - companion animals
  - zoo animals
  - endangered animals
12. Which underlined phrase is similar in meaning to “increases the odds of success” ? (*So, You Want to be a Veterinarian*)
- The estimates for chances in achieving the goal are maximum when you plan ahead.
  - The increases in bets to gain victory, are not just common in academic circles.
  - When a business studies the competition, it improves its chances of surging ahead.
  - A lesser-known fact is that focussing on yourself ensures long-term gains.

13. Select the option that correctly displays the meaning of ‘succinctly’ as used in the given line, from the text about *So, You Want to be a Veterinarian*.  
 It succinctly describes colleges of veterinary medicine...’
- polite, short and sweet, brief, relevant
  - compact, discursive, concise, polite
  - condensed, compact, brief, to the point
  - short and sweet, condensed, discursive, systematic
14. Which book/s of the three mentioned in the text is/are like to include the following line ?  
 How long it takes to become a vet can vary, but if you really love animals and think caring for them is up your alley, then becoming a veterinarian may be the right choice for you.
- Both, *On Being a Veterinarian* and *So, You Want to be a Veterinarian*
  - Only *So, You Want to be a Veterinarian*
  - All three-- *I Want to be a Veterinarian*, *On Being a Veterinarian* and *So, You Want to be a Veterinarian*
  - Only *On Being a Veterinarian*
15. Which topic would be a part of ‘disciplinary specialities’ in *So, You Want to be a Veterinarian* ?
- Remount and Veterinary Corps
  - Internship allowance
  - International Institute of Veterinary Education & Research
  - Sports medicine and rehabilitation
16. Upon reading the passage, which of the following is likely to be inferred about the main aim of *I Want to be a Veterinarian* ?
- Learn about characteristics of veterinarians.
  - Learn about inclusion and diversity.
  - Learn about various community helpers.
  - Learn how to read by oneself.
17. Select the option that matches the books to the most likely readerships, according to the text. Choose three appropriate options from out of four options given.
- | <b>Name of the book</b>                     | <b>Type of readers</b>                     |
|---|--|
| A. <i>I Want to be a Veterinarian</i>       | i) school students/ graduates              |
| B. <i>So, You Want to be a Veterinarian</i> | ii) children                               |
| C. <i>On Being a Veterinarian</i> Series    | iii) pre-vet and veterinary students       |
|   | iv) academics and practicing veterinarians |
- A-(i), B-(ii), C-(iv)
  - A-(i), B-(iii), C-(ii)
  - A-(ii), B-(i), C-(iii)
  - A-(ii), B-(iv), C-(i)

**IV. Read the excerpt from a handicrafts' manual titled 'Woodwork Joints' and answer the following questions by choosing the most appropriate answer.**

**THE SCARF JOINT**

The method known as “scarfing” is used for the joining of timber in the direction of its length, enabling the workman to produce a joint with a smooth or flush appearance on all its faces. One of the simplest forms of scarfed joint is known as the half lap, in which a portion is cut out at the end of each beam or joist, equal in depth to half the full depth of the beam, and of equal length to the required scarf. The two pieces, before they are placed together, form a joint with the projecting part fitting into the recessed portion and the two pieces being secured in their respective positions by screws.

A tabled scarf joint is very easy to make and fit, and is not materially affected by shrinkage. Rectangular wrought iron straps are knocked up over the joint after the two pieces engage. A lapped scarf joint is secured with nuts and bolts and effectively resists compressional stress in vertical posts.

**THE PUZZLE JOINTS**

These are not only interesting in themselves, but are often excellent studies in craftsmanship. The majority of them, if to be satisfactory as puzzles, call for very careful setting out and cutting, entailing the same degree of skill that is demanded for high-class cabinet work. For this reason, several illustrations of examples may well find a place in a volume dealing with woodwork joints. As a rule, these puzzles should be made in hardwood, such as dark walnut or beech, as in whitewood the joints are soon liable to wear.

18. Ensuring the ‘flush appearance on all its faces’ refers to the  
 a) finishing      b) strength      c) stability      d) variation
19. Which option includes the correct meaning of the underlined phrase in the given sentence?  
 Rectangular wrought iron straps are knocked up over the joint after the two pieces engage.  
 a) carved      b) assembled      c) removed      d) created
20. Select the reason why several illustrations of puzzle joint examples are often showcased in a volume dealing with woodwork joints.  
 a) To contrast characteristics of puzzle joints with other types of joints.  
 b) To address the growing demand for wooden cabinets.  
 c) To cater to the popular and extensive usage among carpenters.  
 d) To foster a better understanding of the required precision and skill.
21. Choose the correct order of the following statements in the passage.  
 (i) The workman cuts out a portion at the end of each beam or joist.  
 (ii) The two pieces are placed together to form a joint.  
 (iii) The two pieces are secured in their respective positions by screws.  
 (iv) The workman measures out a portion in the beam that is equal in depth to half the full depth of the beam, and of equal length to the required scarf.  
 a) (i), (iv), (iii), (ii)      b) (ii), (iv), (i), (iii)  
 c) (iv), (i), (ii), (iii)      d) (iv), (ii), (i), (iii)

22. Which quality makes hardwood the choice for puzzle joints ?
- high moisture content
  - colour and shine
  - sturdiness or density
  - shrinkage and swelling

**V. Read the excerpt of a published interview by Lawrence Rubin where he speaks to Jessica Stone on Play Therapy in the Digital Age. Answer the following questions by choosing the most appropriate answer.**

**LAWRENCE RUBIN** : *Hi, Jessica. Thanks for joining me today. How did you become interested in digital play therapy, which really is cutting-edge and somewhat controversial with children ?*

**JESSICA STONE** : I am a licensed psychologist with a specialty in play therapy. Within it, digital play therapy has become one of those areas of interest over the last 20 years, stemming from experiences with my own kids, who had this whole portion of their world that I didn't really understand, know about, or enter into. It struck me as a little bit ironic and maybe even hypocritical that here I spend my time at work and my energy in learning and doing play therapy with children and entering their world, while my own kids have this whole portion of theirs that I was putting no effort into understanding. And so, I kind of had to smack myself upside the head and say, all right, I need to learn more about this. Why is this important to them ? Why are they interested in it ?

Long story short, I ended up entering an online game that my oldest two (of four children) were both playing at the time. I am no digital native by any means, and I was not very good at these games, but the point was that I was taking interest. I was listening to them. I was asking them questions. We were having conversations about what happened in the game, what quest they were working on; things that were important to them that prior to my entering their world, I couldn't participate in or even understand. I began to see that because this co-play was so impactful with my own children, I needed to incorporate it into my work, which really opened the door to what I have been doing for all these years.

**LAWRENCE RUBIN** : *So, you recognized that technology was so important and present in your kids' life that you would be almost doing a disservice to your young clients if you didn't cross that bridge into their digital world. Tell me, what exactly is digital play therapy ?*

**JESSICA STONE**: Digital play therapy is a modality that is based in speaking the client's language through what I call the four C's, which are competency, culture, comfort, and capability. These are basic elements of therapy in general, but digital play therapy in particular is couched within the broader context of prescriptive play therapy, which taps into what Charles Schaefer calls the therapeutic powers of play. So, the point is that there is a foundation for it. It's not just, oh, let's just jump on this bandwagon and start throwing these digital things into what we're doing. We as clinicians need to have a very firm and solid foundation in what it is we're doing and why we're doing it regardless of our theoretical foundation, therapeutic modality, and interventions, or whether the platform is virtual or face-to-face. And as in all therapies, we must ground our interventions in solid case conceptualization and treatment planning.

23. What is the primary purpose of this passage ?
- To highlight the necessity of “digital play therapy” in terms of its foundational benefits and theoretical advantages.
  - To showcase the debate regarding the pros and cons of “digital play therapy” with opinions of an expert.
  - To alert the readers to the inevitability of a shift from conventional therapeutic methods to modern ones like “digital play therapy”.
  - To explore the mindset of an expert with regards to the fallibilities of the new “digital play therapy”.
24. What is the tone conveyed by the speaker when she states – “... I kind of had to smack myself upside the head...” ?
- reflective
  - discouraged
  - confident
  - hypocritical
25. In the line, “...*you would be almost doing a disservice to your young clients...*”, the word ‘disservice’ refers to being
- prejudiced
  - unfair and unhelpful
  - misled
  - stubborn and inflexible
26. How was Jessica Stone impacted by an online game ?
- She could finally understand her children’s behaviour.
  - She began to productively communicate with her children.
  - She noticed a depression in her professional life.
  - She grew to love online games herself.
27. What does the interviewee mean when she says “I am no digital native” ?
- She wasn’t born into a family with digital skills.
  - She was averse to all technology, especially online games.
  - She was an amateur in using technology or playing digital games.
  - She lacked the technical training required to operate digital technology.
28. Which skill does the interviewee display with the usage of the phrase, “Long story short” ?
- rephrasing
  - circumvention
  - discussion
  - brevity
29. Which of these options best describes the expression “jump on this bandwagon” ?
- To get to the conclusion too hastily
  - To adopt an opinion because it is fashionable
  - To re-think previously made decisions
  - To jump into action before thinking it through
30. Which of the following is the least likely inference to be drawn from the given passage ?
- “digital play therapy” shares the basic elements with any general type of therapy.
  - “digital play therapy” became an point of interest for Jessica Stone because of her experiences at home.
  - “digital play therapy” still lacks a proper foundation to make it worthwhile for use.
  - “digital play therapy” allowed Jessica Stone to find a new way of conversing with children.

31. What does the phrase ‘speaking the client’s language’ refer to, in the text ?  
(Digital play therapy is a modality that is based in speaking the client’s language...)
- Highlighting the pros
  - Providing lucrative offers
  - Making the services popular
  - Addressing their needs
32. What is Jessica Stone’s opinion on “digital play therapy” as per the text ?
- It has to be accepted as the new form of therapy as the world is growing increasingly digitalised.
  - It has replaced “prescriptive play therapy” because it has more therapeutic powers.
  - It has to be regarded as an important part of “play therapy” because allows for communication through its mode of co-play.
  - It can be practiced by everyone who wishes to engage in co-play with their children.

**Direction for Questions from VI to IX Passages: Read the given passage and answer the questions by choosing the most appropriate answer.**

- VI.** Down in rain-swept Wiltshire last week, I was able to enjoy a Christmas tree, Christmas crackers, mistletoe, etc. I was able to sing carols and wish everyone I met a happy Christmas. In America, it seems, I’d have been outlawed if I’d attempted any such thing. According to Andrew Stephen in the New Statesman, Americans have become so desperate not to offend religious minorities that Christmas in America is now most definitely not politically correct and, in some cases, literally illegal.

In Kentucky, for example, school bus drivers were warned on no account to say “Merry Christmas” to children getting on or off their buses. In Philadelphia, you are breaking the law, says Stephen, “if you have a Christmas tree in your home – you may be subject to a \$300 fine”. A nursery school teacher in Washington, he goes on, has temporarily removed the “t” from the letters of the alphabet that she has strung around the classroom: “It looked a bit too much like a cross for comfort”. Oh, and schools in Scarsdale, New York “have banned the American tradition of “candy canes”, striped mint sweets in the shape of walking sticks; they could be construed as shepherds’ crooks, you see, and we all know what that means at the time of the year”.

My Christmas in Wiltshire may have been wet but at least it felt like a real Christmas and not like this kind of anodyne travesty, disinfected of all reference to what the holiday is about.

33. Which of the statements do you think does not support the author’s idea in the passage ?
- A nursery school teacher’s extreme attempt not to offend authorities during holiday time.
  - The visible signs of festivities were not inconspicuous in America.
  - Prohibition of candy canes since they were obvious holiday shapes.
  - The conventional etiquette of the season was discouraged in public.
34. The last sentence in the passage conveys that the writer :
- tacitly approves of the way Christmas is approached in America.
  - disagrees with the views and opinions of Andrew Stephen.
  - is content to have had his share of the season’s revelry in Wiltshire.
  - sympathizes with the religious minorities.

35. Which of the following words from the passage, most closely resemble the meaning “anodyne” and “construed” ?
- pernicious, blatant
  - jilted, misinterpreted
  - unobjectionable, interpreted
  - menacing, unequivocal
36. What parts of speech do the words ‘religious’, ‘travesty’ and ‘temporarily’ belong to ?
- adjective, noun, adverb
  - noun, adjective, adjective
  - adverb, verb, adverb
  - noun, noun, adjective
37. Which of the following is the most appropriate title for the passage?
- Abolishing Christmas
  - Christmas past and present
  - The everchanging tradition of Christmas
  - Transcending beliefs

**VII.** Economic historians have argued that the Industrial Revolution in Britain could not have occurred without the capital that became available from the plunder of India. The sudden acceleration of the revolution in Britain, R. P. Dutt points out, coincides with the establishment of British rule in India. He writes, “In 1757 came the Battle of Plassey and the wealth of India began to flood the country in an ever-growing stream... in 1764 came the spinning jenny of Hargreaves; in 1765 came Watt’s steam engine, patented in 1769; in 1769 came the water frame of Arkwright followed by his patents in 1775 for carding, drawing and spinning machines; in 1779 the mule of Crompton and 1785 the power loom of Cartwright; and in 1788 the steam engine was applied to blast furnaces.” These inventions, Dutt argues, did not result from some “special and unaccountable burst of inventive genius,” but from the accumulation of enough capital to make possible the largescale outlay needed to turn the inventions into functional fortunes.

Contemporary accounts attest to the devastation that followed in India. “This fine country,” one of the East India’s own residents reported, “which flourished under the most despotic and arbitrary government is verging towards ruin.” Francis Buchanan, who surveyed the country in the early 1800s, wrote: “The natives allege that, although they were often squeezed by the Mogul officers, and on all occasions were treated with utmost contempt, they preferred suffering these evils to the mode that has been adopted of selling their lands when they fall in arrears, which is a practice they cannot endure. Besides, bribery went a great way on most occasions, and they allege that, bribes included, they did not actually pay one half of what they do now.”

Both agricultural self-sufficiency and what by many accounts was a growing industrial economy were broken down. For the peasant, insecurity, impoverishment, and indebtedness followed. The shadow of famine stalked the next century. The new system of land taxes introduced with the Permanent Settlement of 1793 turned the zamindars, who were originally tax collectors, into landowners with new rights to evict the peasants who cultivated the lands for not paying the revenues.

38. According to the passage, which of the options accelerated the burst of inventive genius in Britain?
- The plethora of inventions in the spinning industry
  - The prevalent custom of bribery in the bureaucracy
  - The funds from its colony that fell into the coffers of the British Raj
  - Inventions that turned the country into functional fortunes.
39. Which could be the prime attributing factor responsible for the disintegration of the Indian economy ?
- The growing indebtedness among the farmer fraternity
  - Widespread penury among the masses
  - The plight of those who were still reeling under the Mogul atrocities
  - All of the above
40. The first paragraph is a fine example of
- oral histories
  - review writing
  - chronological data
  - journal jottings
41. After the Permanent Settlement of 1793, the turn of events led to
- Tax collectors monopolising the levy on peasants' lands
  - Zamindars proclaiming themselves to be legal land owners
  - Mogul officers donning the garb of tax collectors and harassing farmers
  - Peasants were forced to become victims of the widespread famine in the country
42. The passage could probably be an excerpt from
- an economic report
  - the national movement
  - a memoir
  - a scientific abstract

**VIII.** The news made me very happy indeed. I would be married. There would be music, I would hear the women ululating. How exciting that would be! Yet I felt scared at the same time. I cannot express the apprehensions that came to my mind. Meanwhile, the various things necessary for the ceremony began to arrive. Relatives and guests began pouring in. I was scared to death by all this. I did not talk to anyone but spent most of the time weeping. Everybody did their best to reassure me. They embraced me, but the unspoken agony in my mind did not lift.

Later on, I was cheered up by the ornaments, the red wedding sari and the wedding music. I forgot my earlier worries and went about laughing and watching the elaborate preparations. My happiness knew no bounds. When everything was over the next day, I heard people asking my mother, "Are they leaving today?" I thought they were referring to the guests. Then the music started. There was an air of festivity. The guests must be leaving now, I thought. It made me happy and I went about following my mother. Presently everybody assembled in the house. Some looked happy, but others were in tears. They made me really frightened. Then my brothers, aunts, uncles, and my

mother all took me in their arms by turn as they burst into tears. Their tears made me so sad that I began to cry too. I knew my mother was going to hand me to the other family. I tightened my hold on her and pleaded, "Don't give me over to them, Mother!" that made everybody present even more upset. They broke down and tried to say nice words to console me. My mother took me in her arms and said, "You are a good girl, you understand everything, don't you?" God is with us; you needn't be afraid. You are going to come back to us in a few days' time. Every girl has to go to her in-laws' house. Nobody else cries like this. There is no reason to be upset. Please calm down and talk to me." But I was trembling with fear. I was quite unable to speak. Somehow, I managed to say through my tears: "are you sure that God will go with me ?" Mother promptly reassured me that he most certainly would. "He will be with you all the time, so stop crying now." But in spite of her soothing words my apprehensions kept growing and I could not check my tears.

43. In the passage, the people ask the narrator's mother, "Are they leaving today ?" Who are 'they' according to the narrator and the passage ?
- the narrator's relatives ... the groom's people
  - the groom's party ... the bride, the groom, and his folks
  - the wedding guests ... the groom's family
  - the narrator and her people ... wedding guests
44. The women 'ululating' in the passage refers to them
- shedding tears of joy
  - wailing high and low
  - loud sounds expressing mirth
  - vocalising blessings for the couple
45. The tone and mood of the passage is
- Depressing and emotional
  - Satirical and depressed
  - Introspective and empathetic
  - Vitriolic and reassuring
46. Give the appropriate antonyms for : elaborate, agony and apprehension.
- basic, assuagement, solicitude
  - embellished, anguish, dismay
  - plain, solace, repose
  - baroque, distress, inapprehension
47. Identify the type of sentence: "You are a good girl, you understand everything, don't you ?"
- Tag question
  - Interrogative statement
  - Imperative negative statement
  - Echo question

- IX.** What colors can animals see ? Is the world more brightly colored or duller to animals than it is to us ? To find out the answers to these questions scientists have used a method of training the animals to come to different colors, which is similar in principle to the method used in studying the sense of hearing in animals.

Let us take bees first of all, partly because more exact scientific research has been done on the color-sense of bees than of almost any other animal. It is especially interesting to know what colors bees see because these insects visit flowers to get sweet nectar from them to make honey, and in doing so the bees incidentally carry pollen from flower to flower. On the face of it, it would seem very likely that bees are attracted to flowers by their bright colors. But possibly it is the scents that attract the bees, or perhaps it is both color and scent. So, among other things, we want to know whether bees can really see the colors of flowers, and if so, what colors they can see. Exactly how is this found out ?

A table is put in a garden, and on the table a piece of blue cardboard is placed, on which there is a watch-glass containing a drop of syrup. After a short while bees come to the syrup and suck some of it. The bees then fly to their hive and give the syrup to other bees in the hive to make honey. Then they return to the feeding place which they have discovered. We let the bees go on doing this for a while, after which we take away the blue cardboard with the syrup on it. Instead of this card we now put on the table a blue card on the left side of the first feeding-place, and a red card to the right of the first feeding-place. These new cards have no syrup on them but only an empty watch-glass lying on each. Thus, the blue card is on the left, the red card on the right, and there is nothing where the first blue feeding-card used to be. After we have arranged these new cards, we have not long to wait. Very soon bees arrive again, and it can be seen that they fly straight on to the blue card; none go to the red card.

48. What two things can be indicated from the behaviour of the bees ?
- Bees remember that blue means syrup and they fly to the blue.
  - Bees can distinguish blue from red.
  - Bees have a keen sense of scent and sight.
  - Both a) and b)
49. Which of the following statements is valid enough to make this experiment on bees' incomplete ?
- Perhaps the bees had really been trained to identify colors.
  - What if the bees, like human beings, suffer from colour-blindness ?
  - Both a) and b)
  - None of the above
50. According to the passage, which of the following is not true in the case of the subjects mentioned in the study ?
- More exact scientific research has been done on the color-sense of bees than of almost any other animal.
  - Bees are attracted to flowers by their bright colors.
  - Possibly it may be either color or scent that attract the bees.
  - None go to the red card.

**SECTION – B : CURRENT AFFAIRS AND GENERAL KNOWLEDGE**

51. Why did the United States Food and Drug Administration (FDA) restrict Johnson & Johnson's COVID-19 Vaccine ?
- Due to its inefficacy towards new variants
  - Due to its extremely high price
  - Due to a risk of rare but serious blood clots
  - None of the above
52. The board of the Pulitzer Prizes has recently honored Ukrainian journalists for their "courage, endurance and commitment to truthful reporting" on the war between Russia and Ukraine. Which of the following is not true ?
- The Pulitzer Prize is awarded in music
  - The Pulitzer Prize is not awarded in fiction
  - The Pulitzer will designate Washington as its seat of administration of prizes
  - All of the above
53. Who was the first woman judge of the Supreme Court of the United States ?
- Sandra D. Connor
  - Ketanji Jackson
  - Ruth Ginsberg
  - Amy Barrett
54. What is the system of 'six raised dots' relevant for ?
- Cryptocurrency
  - Block-chain
  - Braille
  - Baking
55. Why was UK-Iranian dual citizen Nazanin Zaghari-Radcliffe detained and jailed in Iran from 2016 to 2022 ?
- On charges of driving in western clothing
  - On charges of obscenity in public
  - On charges of inciting Iranian women to violence
  - On charges of espionage
56. Desmond Tutu is credited with establishing and heading the Truth and Reconciliation processes in South Africa. Which of the following statements about him is not true ?
- His activism was deeply rooted in Christian ethos of forgiveness.
  - He advocated for victims to forgive the perpetrators of apartheid.
  - He saw religious prayer and social action as being intrinsically linked.
  - He justified discrimination against homosexuals and sought to differentiate that from apartheid.
57. May 10<sup>th</sup> marks the anniversary of the 1857 revolt against the British. Who among the following did not play a role in the revolt ?
- Maulavi Liyaqat Ali
  - Veer Kunwar Singh
  - Nana Saheb
  - Chiranjit Lal

66. Timor-Leste recently celebrated 20 years of independence. On 20 May 2002, the United Nations formally handed power to the new Timorese government. Who did they gain independence from ?
- Indonesian occupation
  - British occupation
  - Portuguese colonisation
  - Dutch colonisation
67. Savita Halappanavar was a dentist from Karnataka. In 2012, her death in Ireland resulted in a huge furore. What did Amnesty International term her death to be a consequence of ?
- Stringent immigration detention conditions in Ireland
  - Stringent anti-abortion laws of Ireland
  - Prison violence in Ireland
  - Discriminatory hospital care for foreign nationals in Ireland
68. Nilgiri Biosphere Reserve is found at the intersection of which of the following States/ Union Territories ?
- Tamil Nadu, Puducherry, Andhra Pradesh, Telangana
  - Tamil Nadu, Andhra Pradesh, Karnataka
  - Kerala, Karnataka, Telangana
  - Tamil Nadu, Kerala, Karnataka
69. Which of the following is not a Satyajit Ray film ?
- Devi
  - The Music Room
  - Charulata
  - Pyasa
70. In 2018, Chintamani Shivdikar wrote “*Papletwali*” which became viral on YouTube. The song is adopted from a Koli folk tune. Who are the Koli people ?
- They are said to be the first inhabitants of Bombay.
  - They are said to be the upper castes of particular regions of Bombay.
  - They are said to belong to the fishing communities of Sri Lanka.
  - They are said to belong to the carpenter community of Dharwad.
71. The Supreme Court of India declared the Act providing 10.5% internal reservations to the Vanniyar community in Tamil Nadu to be ‘unconstitutional’ because
- The State Government lacked competence to enact this statute.
  - Only the President can determine those who are most backward.
  - Reservations are against the basic structure of the Constitution of India.
  - The Vanniyars do not constitute a class apart from other OBC categories and hence this goes against Articles 14, 15 and 16 of the Constitution of India.

**SECTION – C : LOGICAL REASONING**

81. All whales are mammals. All creatures breathe. Some whales are creatures.

Mickey Mouse is a whale.

Examine the following statements :

- I. Mickey Mouse breathes.
- II. Mickey Mouse does not breathe.
- III. Mickey Mouse is a creature.
- IV. Mickey Mouse is not a creature.
- V. Mickey Mouse is a mammal.
- VI. Mickey Mouse is not a mammal.

Choose the most appropriate answer.

- a) Only II, IV and V follow
- b) Only V follows
- c) I, III and V follow
- d) Only VI follows

82. All whales are mammals. All creatures breathe. Some whales are creatures.

Eiffel Tower is a mammal.

Examine the following statements :

- I. Eiffel Tower breathes.
- II. Eiffel Tower does not breathe.
- III. Eiffel Tower is a creature.
- IV. Eiffel Tower is not a creature.
- V. Eiffel Tower is a whale.
- VI. Eiffel Tower is not a whale.

Choose the most appropriate answer.

- a) Only I and III follow
- b) Only II, IV and VI follow
- c) Only V follows
- d) None of the above

83. All whales are mammals. All creatures breathe. Some whales are creatures.

Internet is a creature.

Examine the following statements :

- I. Internet breathes.
- II. Internet does not breathe.
- III. Internet is a whale.
- IV. Internet is not a whale.
- V. Internet is a mammal.
- VI. Internet is not a mammal.

Choose the most appropriate answer.

- a) Only I follows
- b) Only I, II and V follow
- c) Only I, IV and VI follow
- d) Only III follows

84. All whales are mammals. All creatures breathe. Some whales are creatures. Further, anything that breathes is a mammal.

Mickey Mouse is a whale. Eiffel Tower is a mammal. Internet is a creature.

Examine the following statements :

- I. Only one out of Mickey Mouse and Internet breathes.
- II. At least one out of Mickey Mouse, Internet and Eiffel Tower does not breathe.
- III. It is possible that all of Mickey Mouse, Internet and Eiffel Tower breathe.
- IV. All of Mickey Mouse, Internet and Eiffel Tower are mammals.
- V. If it is true that Mickey Mouse breathes, then it is also true that Mickey Mouse is a creature.

Choose the most appropriate answer.

- |                              |                           |
|------------------------------|---------------------------|
| a) Only IV follows           | b) Only III and IV follow |
| c) Only I, II, and IV follow | d) Only V follows         |

85. Capitalism is a philosophy. All ideas are fictional objects. Only fictional objects are philosophy.

Examine the following statements :

- I. Capitalism is an idea.
- II. Capitalism is a fictional object.
- III. Capitalism is not an idea.

Choose the most appropriate answer.

- |                         |                           |
|-------------------------|---------------------------|
| a) Only I and II follow | b) Only II and III follow |
| c) Only II follows      | d) None follows           |

86. All khaps are fair institutions. No fair institutions are democratic. Only courts are democratic.

Examine the following statements :

- I. Some courts are fair institutions.
- II. No courts are fair institutions.
- III. It is possible that all courts are fair institutions.

Choose the most appropriate answer.

- |                     |                    |
|---------------------|--------------------|
| a) Only I follows   | b) Only II follows |
| c) Only III follows | d) None follows    |

87. All thieves are persons. Some persons are dishonest. All dishonest persons go to jail.

'X' is a person.

Examine the following statements :

- I. X is a thief.
- II. X may be dishonest.
- III. X is necessarily dishonest.
- IV. If X is a thief, he will go to jail.

Choose the most appropriate answer.

- |                    |                     |
|--------------------|---------------------|
| a) I and IV follow | b) Only IV follows  |
| c) Only II follows | d) Only III follows |

88. All black money funds terrorist activities. All terrorist activities are financed solely by corrupt politicians. If the Lokpal Bill is passed, all assets and financial sources of all corrupt politicians will be frozen. If demonetisation is declared, all black money will disappear.

If the above statements are true, which of the following follow(s) ?

- I. If demonetisation is declared, funding of terrorist activities will completely stop.
- II. If the Lokpal Bill is passed, funding of terrorist activities will completely stop.
- III. If demonetisation is declared and the Lokpal Bill is passed, funding of terrorist activities will completely stop.

Choose the most appropriate answer.

- a) Only I follows
  - b) Only II follows
  - c) Only III follows
  - d) Both II and III follow
89. All laptops are computers. Some computers are useful. Everything that is useful is precious.

X is a computer.

Which of the following statements necessarily follows ?

- a) All precious objects are useful.
- b) If 'X' is useful, it must be a laptop.
- c) X must be precious.
- d) If 'X' is a useful laptop, it must be precious.

90. All democratic governments are elected. Some elected governments are fair. No dictatorships are elected.

'X' is a dictatorship.

Which of the following statements necessarily follows ?

- a) X may be a democratic government.
- b) X cannot be fair.
- c) X cannot be a democratic government.
- d) None of the above

91. Some apples are fruits. All fruits are ducks. Some ducks are books.

Which of the following statements necessary follows ?

- a) Some books are apples
  - b) At least some books are ducks
  - c) No ducks are apples
  - d) All ducks are fruits
92. Some White are Blue. Some Blue are Green. Some Green are Red. Some Red are Yellow. Some Red are Blue. Some Red are White. Some Yellow are White. Some Yellow are Blue. All Green are White. All Blue are Red.

If the above statements are true, which of the following follow(s) ?

- I. No Yellow is Green.
- II. Of the Red which are White, some are also Yellow.
- III. Of the Red that are Green, some are also Blue.
- IV. Some White are Green.

Choose the most appropriate answer.

- a) Only II and III follow
- b) Only III and IV follow
- c) Only I and IV follow
- d) All follow

93. Only Tigers are Fish. Only Rabbits are Fish. Only Rabbits are Tigers. Some Deer are Tigers.

If the above statements are true, which of the following follow(s) ?

- I. If A is a Rabbit, A is also a Deer.
- II. If B is a Deer, B is also a Rabbit.
- III. Some Deer are Fish.
- IV. Some Deer are Rabbits.

Choose the most appropriate answer.

- a) Only IV
- b) Only II
- c) Only I and II
- d) None follows

94. Most persons are individuals. Some companies are State. Most State are individuals.

If the above statements are true, which of the following follow(s) ?

- I. Some persons are State.
- II. Some State are companies.
- III. Some companies are persons.
- IV. Some companies are individuals.

Choose the most appropriate answer.

- a) Only II and III
- b) Only I and II
- c) Only II
- d) None follows

95. Statement: "We are short on time so we better send these documents via speed post."

Assumption made:

- a) Sending documents via speed post will take less time than some other means of sending documents.
- b) Documents must always be sent via speed post.
- c) Sending documents via speed post will take less time than all other means of communication.
- d) None of the above

96. "The best telecom services in the world are to be found in South Korea and Japan, and neither country allocates spectrum on the basis of auctions. Spectrum is assigned on the basis of discretion, the focus being on ensuring the availability of cutting-edge telecom services and the revenue the super-enabled industry would generate, rather than on generating revenue from spectrum auctions. Neither the Japanese nor the Koreans are squeamish about eating almost anything that creeps, crawls, swims, flies or runs. But when it comes to geese that lay golden eggs, they apparently lay off."

Which of the following assumptions is made in the above passage ?

- a) Geese are not consumed as food in Japanese and South Korean cultures
- b) Auctioning telecom spectrum would generate a great deal of revenue for the Japanese and South Korean Governments
- c) Governments that wish to provide good telecom service should not auction telecom spectrum
- d) Governments that wish to provide good telecom service should auction telecom spectrum

97. Even before the coronavirus, lack of sleep was a simmering public-health crisis associated with a suite of maladies. Roughly 10 to 15 percent of people worldwide were suffering from chronic insomnia, the struggle to fall or stay asleep at least three nights a week for three months or longer. Crises such as natural disasters or terrorist attacks are known to trigger short-term sleeplessness. But experts say the pandemic's unprecedented global impact and protracted nature threaten to expand the rate of chronic insomnia, which is much harder to treat.

Which one of the following is an assumption required by the argument ?

- Increasing levels of obesity in the world population have exacerbated chronic insomnia.
  - There has been an uptick in natural disasters and terrorist attacks in recent times.
  - Heightened levels of stress contribute to short-term as well as long-term sleeplessness.
  - The treatment of chronic insomnia is costly for public health systems across the world.
98. Scientists say they have completed the first full and seamless catalogue of genetic instructions of humans. Until now, about 8% of the human genome code was missing from the blueprint. The quest to decipher and complete a gapless DNA sequence has taken decades. The resource helps explain how to create every human cell in the body, which could shed light on how to treat, prevent and cure disease. Now, just 10 million bases or letters of human DNA out of roughly 3 billion, are unknown.

The conclusion drawn above follows logically if which one of the following is assumed ?

- Until the discovery it had been impossible to explain how any human cell in the body is created.
- It has been possible to complete the full seamless catalogue of human genetic instructions using 2.99 billion letters of human DNA.
- Scientists will be able to explain how to treat and prevent cellular diseases only once the remaining 10 million letters of human DNA are known.
- The 8% of missing human genome code has taken the longest time to be deciphered.

99. Read the Statement given below and decide which of the Assumptions listed thereafter are implicit in the Statement.

**Statement :** India should generate solar energy to meet its unmet energy requirements.

**Assumptions :**

- Solar energy is cheaper than other forms of energy.
- India is capable of generating solar energy.
- India is unable to meet its energy requirements using non-solar sources of energy.

Choose the most appropriate answer.

- Only I is implicit.
- Only II is implicit.
- Only III is implicit.
- Both II and III are implicit.

100. Read the Statement given below and decide which of the Assumptions listed thereafter are implicit in the Statement.

**Statement :** To catch the rats running around in the house, you should use a rat trap.

**Assumptions :**

- I. Rats are likely to step into rat traps.
- II. Food will be kept inside the rat trap.
- III. Rat traps are small in size.

Choose the most appropriate answer.

- a) Both I and II are implicit
  - b) All are implicit
  - c) Only I is implicit
  - d) Only II is implicit
101. Carmakers are taking the middle path in their electrification journey in India, with powerful hybrids flagging off the 'green race' for three leading Japanese car manufacturers. Japanese carmakers believe introducing hybrids will eventually lead to higher localization of parts for electric vehicles, making them more accessible to a larger customer base. These manufacturers have no plans of launching an electric car in India before 2025 and are currently working on localisation of hybrid vehicle parts.

The passage assumes which one of the following ?

- a) Carmakers in Japan have been successful in scaling up production of electric vehicles in the past.
- b) Indian customers are unable to afford electric vehicles.
- c) Manufacturing processes for electric and hybrid vehicles are similar to the extent that production of the latter shall ease future production of the former.
- d) There will be no electric car production in India until 2025.

102. Read the Statement given below and decide which of the Assumptions listed thereafter are implicit in the Statement.

**Statement :** Employers must offer flexible working schedules or risk resignations by talented employees.

**Assumptions :**

- I. Employers should offer flexible working schedules.
- II. Some employees want flexible working schedules.
- III. Some employees value flexible working schedules so much that they would resign if these are not offered.

Choose the most appropriate answer.

- a) Both II and III are implicit
  - b) All are implicit
  - c) Only I is implicit
  - d) Only II is implicit
103. Even though switching to veganism may be costly and sometimes inconvenient, it is a good change if one wishes to improve their chances of leading a healthy life, while benefitting the environment.
- Which of the following is an assumption necessarily taken for granted in the above statement ?
- a) The costs involved and inconvenience of making a change act as deterrents for most people.
  - b) It is possible to undertake practices that may impact how healthy a life one lives.
  - c) Non-vegetarianism impacts the environment most adversely.
  - d) Costly and inconvenient choices must always be made to effect positive change.

104. 'X' and 'Y', enter into a contract (i.e. X and Y are parties to the contract) for supply of goods by X to Y in exchange for payment from Y to X. Consider the following Clause in the contract :

(Sub-Clause 1) Neither party shall be held liable for failure to comply with its obligations under this contract if such failure is due to any kind of natural disaster or human event beyond its control.

(Sub-Clause 2) The successful invocation of this Clause by either party shall protect that party from liability for non-fulfilment of its obligations under the contract only until the natural disaster or human event in Sub-Clause 1 continues to affect that party."

The contract requires X to deliver goods from his house to Y's house latest by 30<sup>th</sup> May. Both X and Y live in the same city. On the morning of 30<sup>th</sup> May, there is a big earthquake near X's house which causes all roads in the area to be blocked. The blockage remains present until 31<sup>st</sup> May.

Can X claim that this situation falls under Sub-Clause 1 ?

- a) Yes, because the earthquake is a natural disaster beyond X's control.
- b) Yes, because X's failure to deliver the goods to Y by 30<sup>th</sup> May was due to the earthquake.
- c) No, because X could have delivered the goods to Y before 30<sup>th</sup> May and his failure to deliver the goods to Y is due to his laziness and not only due to the earthquake.
- d) Combination of options 'a' and 'b'.

105. Consider the following principle :

In a dispute between X and Y, Y can sue X :

- (i) In the city of X's residence, OR
- (ii) In the city where the dispute arose

X and Y enter into a contract which requires X to deliver goods from his house to Y's house latest by 30<sup>th</sup> May. X lives in Delhi and Y lives in Calcutta. X fails to deliver the goods by 30<sup>th</sup> May due to an earthquake in Delhi. Y wants to sue X for breach of the contract.

Y can sue X :

- a) In Delhi only
- b) In Calcutta only, assuming that the dispute arose in Calcutta
- c) In either one of Delhi and Calcutta, assuming that the dispute arose in Calcutta
- d) None of the above

106. Consider the following principle :

In a dispute between X and Y, Y can sue X :

- (i) In the city of Y's residence, OR
- (ii) In the city of X's residence, OR
- (iii) In the city where the dispute arose

Y lives in Calcutta and is the owner of the restaurant 'Y's Yummilicious Restaurant', located in Calcutta. X lives in Delhi and starts a restaurant named 'Yummilicious Restaurant' in Delhi. Y wants to sue X for infringement of the name 'Yummilicious Restaurant'.

Y can sue X :

- a) In Delhi only
- b) In Calcutta, but only if the dispute arose in Calcutta
- c) In either one of Delhi and Calcutta, regardless of where the dispute arose
- d) None of the above

107. All contracts are agreements. Only agreements enforceable by law are contracts. Y is a government official tasked with issuing driving licenses to applicants who meet the criteria. X has applied for a driving license but does not meet the criteria. X and Y enter into an oral agreement that X will pay Y Rs. 5000 to issue a driving license to X. With reference to the facts given above, X says "I have entered into a contract with Y."
- X is wrong because the agreement is not in writing.
  - X is wrong because an agreement not enforceable by law is not a contract.
  - X is right.
  - There is insufficient information to reach the conclusions in Options a, b and c
108. Anyone who pleads on behalf of another in a Court is a pleader. All lawyers are pleaders. X, a lawyer, pleads his own case in Court.
- X is a pleader in this case.
  - X is not a pleader in this case as he is not pleading on behalf of another.
  - As long as he is a lawyer, X is a pleader in all cases.
  - None of the above
109. All offences are punishable. Not everything that is punishable is an offence. Only that which is punishable is an offence. X, a school student, does not submit her homework on time and is punished by being given extra homework.
- X has certainly committed an offence
  - X has certainly not committed an offence
  - We do not have sufficient information to determine whether X has committed an offence
  - None of the above
110. Only registered trademarks can be infringed. Copying a registered trademark is sufficient to constitute infringement. X owns the trademark 'Yummilicious Restaurant'. Y copies this trademark. X sues Y for infringement.
- If X's trademark was registered, Y has necessarily infringed X's trademark
  - Y has necessarily infringed X's trademark only if X's trademark was registered and Y was aware of X's trademark
  - Y has definitely not infringed X's trademark
  - None of the above
111. **Limitation Principle** : A suit for recovery of money can be filed only within 3 years from the date the money becomes due to be recovered. Suits filed after this period are not maintainable. Suits filed within this period are necessarily maintainable. Money became due from Y to X on March 17, 2017. X filed a suit for recovery of money on March 1, 2022.
- X's suit is not maintainable
  - X's suit is maintainable
  - There is insufficient information to determine if X's suit is maintainable
  - None of the above

112. **Issue** : Is Lebron James the best professional basketball player of all time ?  
**Argument 1** : Yes. Lebron James has had the largest fan base among all professional basketball players in the history of the sport.  
**Argument 2** : No. Lebron James has changed his team too many times.  
**Argument 3** : Yes. No other player has scored more points in their professional career than Lebron James has.  
 Choose the most appropriate answer.  
 a) Only Argument 1 is strong                      b) Only Argument 2 is strong  
 c) Only Argument 3 is strong                      d) Both Arguments 1 and 3 are strong
113. **Person 1** : Children should not read novels that contain instances of racism.  
**Person 2 in response to Person 1**: Parents and teachers of children can use such novels to educate children against racism.  
 Which of the following is correct ?  
 a) Person 1 and Person 2 agree that some novels contain instances of racism.  
 b) Person 2 supports racism.  
 c) Both 'a' and 'b'  
 d) Neither 'a' nor 'b'
114. Cocoa is rich in plant chemicals called flavanols that may help to protect the heart. Dark chocolate contains up to 2-3 times more flavanol-rich cocoa solids than milk chocolate. Flavanols have been shown to support the production of Nitric Oxide (NO) in the endolethium (the inner cell lining of blood vessels) that helps to relax the blood vessels and improve blood flow, thereby lowering blood pressure. Flavanols in chocolate can increase insulin sensitivity in short term studies; in the long run this could reduce risk of diabetes.  
 Which of the following, if true, strengthens the explanation above ?  
 a) Communities with high levels of dietary intake of dark chocolate exhibit low rates of death from hypertension (high blood pressure).  
 b) Individuals with low levels of nitric oxide in the endolethium exhibited relaxed blood vessels and robust blood flow.  
 c) There is no peer-reviewed study which proves the link between intake of cocoa flavanols and reduction in risk of diabetes.  
 d) None of the above
115. AI often elicits a sense of amazement, of wonder, of possibility for the future. But just as AI offers advancements, there is also the potential for a bleak future – machines are prone to bias and racism. These machines learn by running training data through algorithms, each crafted by human handlers. Therefore, if the data inputted into the system is biased, the result will be biased too. This is dangerous and the threat needs to be addressed before biased AI systems become ubiquitous. Ultimately, AI systems have the potential to deepen existing systemic inequalities, particularly in industries like healthcare, employment, and criminal justice.  
 Which one of the following is an assumption required by the argument ?  
 a) Existing data sets can incorporate the biases of human handlers which reflects in AI output.  
 b) Large-scale deployment of AI systems has been hindered by the likelihood of biased results.  
 c) Human handlers have tried to manipulate AI systems through the use of biased data.  
 d) Industries like healthcare, employment, and criminal justice are in urgent need of AI systems.

116. Fake news and sophisticated disinformation campaigns are especially problematic in democratic systems, and there is growing debate on how to address these issues without undermining the benefits of digital media. In order to maintain an open, democratic system, it is important that government, business, and consumers work together to solve these problems.

Which one of the following explanations, if valid, most helps to justify the above reasoning ?

- a) An effective means of countering fake news and disinformation campaigns is to revert to print media for critical information.
- b) Only governments have the power to counter fake news and sophisticated disinformation campaigns.
- c) Autocratic systems of government ensure that only verified and accurate information is disseminated.
- d) Democratic societies are underpinned by freedom of speech and expression.

117. Legislator: We recently evaluated the impact that an amendment to a particular national legislation would have on the population, by undertaking a survey in the most populous state of the country as well as a nation-wide survey. We were unable to get any information from the national survey results. However, we found that the response to the amendment was highly promising in the state-wide survey. We concluded that the national population's response would be promising as well.

The Legislator's reasoning does which of the following ?

- a) infers a statistical generalisation by deploying statistical tools to different data sets.
- b) bases the prediction about the impact of a phenomenon on the impact of the phenomenon's cause.
- c) makes a prediction about future events on facts from multiple recent comparable events.
- d) uses evidence from a case where direct evidence is available to make a conclusion about a dissimilar case where direct evidence is not available.

118. **Statement** : The Criminal Procedure (Identification) Bill, 2022 ("Bill") seeks to authorise the taking of measurements (such as finger-impressions) of convicts and other persons for the purposes of identification and investigation in criminal matters.

**Person 1** : The Bill should not become a law because it allows for collection of measurements without any provisions for data protection.

**Person 2** : I disagree. Data protection measures can be developed. But the Bill will help law enforcement agencies to utilise the latest technology to identify criminals.

Which of the following is correct ?

- a) Person 1 and Person 2 agree that the Bill should not become a law under any circumstances.
- b) Person 1 and Person 2 agree that data protection is a valid concern with respect to the Bill.
- c) According to Person 2, concerns about data protection are sufficient to reject the Bill.
- d) None of the above

119. **Issue** : As of April 2022, a few cases of the COVID XE variant have been found in India, which may be more transmissible than previous variants.

**Person 1** : (in April 2022): The government should institute a national lockdown pre-emptively to prevent a potential new wave of COVID XE. Although lockdowns cause great difficulty for people, there is no other way to prevent a potential new wave.

**Person 2** : (in April 2022): A national lockdown is a drastic measure that severely harms businesses and people. The risk posed by the new COVID XE variant does not justify a national lockdown, at least at this stage.

Which of the following is correct ?

- a) Person 1 and Person 2 agree that a lockdown will definitely be needed in future.
- b) Person 2 thinks that a national lockdown is never justified.
- c) Person 1 and Person 2 agree that a lockdown has negative consequences.
- d) None of the above

120. Children who enjoy reading books usually do so indoors. Children should spend time playing outdoors.

**Conclusions** :

- I. Children should not read books.
- II. Children who enjoy reading books never play outdoors.

Choose the most appropriate answer.

- a) Only I follows
- b) Only II follows
- c) Both I and II follow
- d) Neither I nor II follows

121. The quickest way to decarbonise in the near term is scaling up renewable energies to replace coal and gas. This will be even more important as transport and home heating become electrified. While electrification and the deployment of renewables can go a long way, for some sectors this will not be enough. Cement and steel manufacture, for instance, cannot be simply electrified and powered by renewables. Similarly, heavy duty transport — such as air travel, shipping and long-haul trucking — presents a challenge.

Which one of the following statements can be properly inferred from the passage ?

- a) Transport and home heating cannot be powered using coal and gas.
- b) Air travel and shipping can be decarbonised over the long-term using current renewable energy technologies.
- c) Existing modes of generating renewable energy are insufficient for decarbonising cement manufacturing.
- d) Long-haul trucking can only be powered using coal and gas.

122. The cloud-burst caused extensive damage to roadways around the town, making them unsuitable for heavy vehicles such as trucks and buses carrying more than 20 people. As a result, the villagers are being extracted via air. The roadways cannot be mended until everyone is extracted safely.

Based on the information above, which conclusion necessarily follows ?

- a) Materials for mending the roadways will have to be transported via air.
- b) No person or vehicle is entering the town via roadways.
- c) The villagers would have used trucks to leave the town if the roads weren't damaged.
- d) None of the above

123. Ayurveda is a traditional branch of medical science in India. Ayurveda techniques have great capabilities, and complex procedures including surgeries can be performed effectively using the principles of Ayurveda.

Based on the information above, which conclusion necessarily follows ?

- I.** Ayurveda is a better form of medicine than allopathy.
- II.** Ayurveda is a neglected science.

Choose the most appropriate answer.

- a) Only I follows
- b) Only II follows
- c) Both I and II follow
- d) Neither I nor II follows

124. There are many ways to be successful in life. One way is to work hard and be good at your job. Another way is to be street smart and develop a great emotional quotient. Yet another way is to always follow the advice of your elders.

Based on the information above, which conclusion necessarily follows ?

- I.** All three are equally easy ways of being successful in life.
- II.** It is possible to be successful without working hard.

Choose the most appropriate answer.

- a) Only I follows
- b) Only II follows
- c) Both I and II follow
- d) Neither I nor II follows

125. The freedom of speech is not absolute. Certain categories of speech, such as hate speech, sedition, defamation, etc., are not protected by the Constitution.

Based on the information above, which conclusion necessarily follows ?

- I.** Obscene speech is protected by the Constitution.
- II.** Defamation is a criminal offence.

Choose the most appropriate answer.

- a) Only I follows
- b) Only II follows
- c) Both I and II follow
- d) Neither I nor II follows

126. It is statistically proven that those who play sports suffer from less stress than those who do not play sports. In fact, regularly playing sports is associated with an overall higher level of mental health. Further, outdoor sports are associated with better mental health than indoor sports.

Based on the information above, which conclusion necessarily follows ?

- I.** Sports are essential to maintain good mental health.
- II.** People who regularly play sports never face mental health issues.

Choose the most appropriate answer.

- a) Only I follows
  - b) Only II follows
  - c) Both I and II follow
  - d) Neither I nor II follows
127. Since their inception in the 1970s, video games have often been criticized by some for violent content. Politicians, parents, and other activists have claimed that violence in video games can be tied to violent behavior, particularly in children, and have sought ways to regulate the sale of video games. However, numerous studies have failed to find any connection between video games and violent behavior.

Based on the information above, which conclusion necessarily follows ?

- I.** Video games have no relationship with violence.
- II.** Better studies need to be conducted to find a link between video games and violence.

Choose the most appropriate answer.

- a) Only I follows
  - b) Only II follows
  - c) Both I and II follow
  - d) Neither I nor II follows
128. In 2008, the Bar Council of India framed a rule stipulating that an advocate is prohibited from advertising or soliciting his work either directly or indirectly, through circulars, advertisements, interviews, touts, and personal communications. The idea of the prohibition of advertising practices in the legal profession has been taken from the law in the UK, where the legal profession is considered noble, and it is believed that its commercialization will cause dishonor to the profession and will lead to unfair practices.

Based on the information above, which conclusion necessarily follows ?

- I.** The Bar Council of India has copied the law in the UK without applying its own mind as to whether such a restriction on advertising would be conducive in the Indian context.
- II.** Lawyers in India are not allowed to commend themselves to persons looking for legal assistance.

Choose the most appropriate answer.

- a) Only I follows
- b) Only II follows
- c) Both I and II follow
- d) Neither I nor II follows

129. The Government of Kerala has reserved 75% seats in all public educational institutions for persons having 'domicile' status in the State of Kerala. The reason cited by the Government is that other States in the country have taken similar measures with respect to their residents. The approach adopted by the State of Kerala is improper because every State authority is required to independently apply its own mind before arriving at a decision.

Based on the information above, which conclusion necessarily follows ?

- I. 75% seats in all public institutions are in fact occupied by persons holding 'domicile' status in the State of Kerala.
- II. The reason behind the introduction of 'domicile' reservations by the State of Kerala is not an assessment of backwardness of certain parts of the State.

Choose the most appropriate answer.

- a) Only I follows
  - b) Only II follows
  - c) Both I and II follow
  - d) Neither I nor II follows
130. The April 1986 disaster at the Chernobyl nuclear power plant in Ukraine was a direct consequence of Cold War isolation and the resulting lack of any safety culture. While no-one in the West was under any illusion about the safety of early Soviet nuclear reactor designs, some lessons learned have also been applicable to Western plants. Since then, the safety of all Soviet-designed reactors has improved vastly. This is due largely to the development of a culture of safety encouraged by collaboration between East and West, and substantial investment in improving the reactors.

Which one of the following statements can be inferred from the passage ?

- a) Financial investment in nuclear reactor-safety was not a priority for governments prior to the Chernobyl disaster.
- b) In the period preceding the Chernobyl disaster, Western nuclear scientists believed their nuclear reactors are superior than Soviet reactor designs.
- c) The level of collaboration between Western and Eastern nations in the pre-Chernobyl era/before 1986, in relation to safe nuclear reactor designs, was lower compared to the post-Chernobyl era.
- d) Both b) and c)

131. Black people are about twice as likely to develop Alzheimer's disease as White people, but for years the pharmaceutical industry has mostly left them out of trials intended to prove new drugs are safe and effective. Two trials organized by a leading pharmaceutical company for its drug 'X', the first Alzheimer's drug approved in almost two decades, were among those with the lowest Black representation. Only 19 people, or 0.6%, of 3,285 participants in its two final-stage trials identified themselves as Black. There are good reasons to study Alzheimer's in broader populations: The disease is still poorly understood, and the brain pathology and disease genetics may be different in groups with different ancestry.

Which one of the following statements can be inferred from the passage ?

- a) Drug companies find it economical to enroll non-black participants in clinical trials.
- b) Black people are reluctant to enroll in clinical trials.
- c) The approval of Drug X will enable pharmaceutical companies to better understand Alzheimer's disease.
- d) The approved Drug 'X' may not be as safe and efficacious among Black patients as it would be among White patients.

132. Geeta is buying three ice-cream bars and must distribute them amongst five of her friends - V, W, X, Y and Z - in accordance with the following conditions :
- If V gets an ice-cream bar, W and Y must also get an ice-cream bar.
  - If Z gets an ice-cream bar, X cannot get an ice-cream bar.
  - At least one of W or X must get an ice-cream bar.
  - Each ice-cream bar can only go to one person.
- If X gets an ice-cream bar, the other two ice-cream bars can go to :
- Only V and W
  - Only W and Y
  - Only W and Z
  - None of the above
133. A school principal must schedule classes for five subjects – English, Maths, Science, Social Studies, and Music – in accordance with the following conditions :
- All subjects except Music must be scheduled at least once a day.
  - Science must be scheduled immediately after Maths on any day.
  - English cannot be the first or last subject scheduled on any day.
  - Social Studies cannot be immediately followed by Music. Music cannot be immediately followed by Social Studies.
- If English is the second subject scheduled on a given day, which of these is a possible order of subjects for that day ?
- Music, English, Maths, Social Studies
  - Science, English, Music, Social Studies
  - Social Studies, English, Maths, Science
  - Maths, English, Science, Social Studies
134. An athlete who enjoys playing football, tennis, badminton, cricket and basketball must somehow play all five of these sports during a given 7-day week (starting on Monday and ending on Sunday) in accordance with the following conditions :
- Football cannot be played on Monday or Sunday.
  - Badminton cannot be played on the day immediately before or immediately after the day on which tennis is played.
  - Basketball cannot be played on Thursday.
  - At least two of the five sports must be played twice during the week.
  - Only one sport can be played each day.
  - No sport can be played for two consecutive days.
- If Badminton is played on Monday and Basketball is played on Saturday, which of the following is a possible order of sports for the week ?
- Badminton (Monday), Tennis (Tuesday), Cricket (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday), Badminton (Sunday)
  - Badminton (Monday), Football (Tuesday), Tennis (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday), Basketball (Sunday)
  - Badminton (Monday), Football (Tuesday), Tennis (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday), Cricket (Sunday)
  - None of the above

135. Seven locations (Classroom, Hostel, Library, Auditorium, Dining Hall, Meeting Room, and Common Room) within an unusual college campus are to be assigned floor numbers from 1 (lowest) to 7 (highest). Each location can only have one floor number, and each floor number can only be assigned to one location. The numbering is to be done in accordance with the following conditions :

- (i) The Classroom is on a lower floor than the Auditorium.
- (ii) The Meeting Room is exactly one floor lower than the Hostel.
- (iii) The Library is either on Floor 1 or on Floor 7.
- (iv) The Common Room is on Floor 4.

Which of the following is a possible arrangement of the seven locations, going from Floor 1 to Floor 7 ?

- a) Classroom, Auditorium, Dining Hall, Common Room, Library, Meeting Room, Hostel
- b) Classroom, Dining Hall, Auditorium, Common Room, Meeting Room, Hostel, Library
- c) Classroom, Meeting Room, Dining Hall, Common Room, Hostel, Auditorium, Library
- d) Library, Dining Hall, Common Room, Meeting Room, Hostel, Classroom, Auditorium

136. Some laptops are chocolates. All toffees are chocolates.

Examine the following statements :

- I. Some laptops are toffees.
- II. No toffees are laptops.
- III. All toffees are laptops.
- IV. All laptops are toffees.

Choose the most appropriate answer.

- a) Either I or II follows.
- b) Either III or IV follows.
- c) Both I and III follow.
- d) Both I and IV follow.

137. All boxes are plugs. All plugs are bottles.

Examine the following statements :

- I. All plugs are boxes.
- II. All bottles are boxes.
- III. No bottles are boxes.

Choose the most appropriate answer.

- a) Only Statement I is certainly false.
- b) Both Statements II and III are certainly false.
- c) Both Statements I and III are certainly false.
- d) Only Statement III is certainly false.

138. Only fruits are pasta. All noodles are pasta.

Examine the following statements:

- I. No fruits are noodles.
- II. All pasta are noodles.
- III. All fruits are noodles.

Choose the most appropriate answer.

- a) Only Statement I is certainly false.
- b) Both Statements II and III are certainly false.
- c) Both Statements I and III are certainly false.
- d) Only Statement III is certainly false.

139. People are always blaming circumstances for their difficulties. Most who succeed in this world are people who get up and look for the circumstances they want, and if they cannot find them, they make them.

Which of the following is an assumption necessarily taken for granted in the above statement ?

- a) Failure is always a consequence of not trying hard enough.
- b) Those who do not complain about their circumstances are successful in life.
- c) There is some correlation between desired circumstances and success.
- d) Both b) and c)

140. Online retailers do not have to pay for overheads such as shop rent and sales staff salaries, owing to which they can charge lower prices for products than brick-and-mortar stores which have to incur such costs.

The conclusion drawn above follows logically if which of the following is assumed ?

- a) Online retailers pay lesser salaries than brick-and-mortar stores.
- b) Consumers prefer to pay less prices.
- c) Shop rent and sales staff salaries add to the price consumers have to pay for products.
- d) Both b) and c)

141. The world sees tech companies as giants with trillion-dollar market values and global networks. Cue renewed regulatory efforts to undermine their dominance. Shortly after the EU agreed stringent legislation to regulate Big Tech, the UK this week set out details of its plan. Such moves are a response to Big Tech's competition-stifling scale. Amazon will account for an estimated 39.5 per cent of the US e-commerce market this year, according to research. Meta has 3.6bn users around the world and is the world's largest social media company. Google has 92 per cent of the search engine market, according to data.

Which of the following is the most appropriate assumption required by the above passage ?

- a) Tech companies with small market shares will go bankrupt not survive in the absence of regulatory intervention.
- b) The regulatory efforts will help bolster the market shares of the competitors of Amazon, Meta and Google.
- c) Regulators have been struggling to rein in Big Tech.
- d) Tech companies with large market shares merit regulatory intervention in order to maintain competitive markets.

142. Ethanol can be blended into petrol to reduce the quantity of petrol required to run a vehicle, thus reducing dependency on imported, costly and polluting petroleum. For India to meet its target of 20% ethanol blended in petrol by the year 2025 (commonly known as the E20 target), it will have to bring in more land under cultivation of feedstock – agricultural products that can be converted into ethanol – area that can be better utilised for the generation of renewable energy and for furthering the electric vehicles adoption programme in the country, according to a new report. Besides, the ethanol target will not reduce earth-warming emissions drastically, it may be detrimental to India’s food security, and will only help us inch towards energy security, experts say.
- The conclusion drawn above follows logically if which of the following is assumed ?
- India’s food security is already under threat.
  - Dearth of renewable energy is hindering the adoption of electric vehicles in the country.
  - India is lagging behind in achieving its E20 target.
  - Land to be used for feedstock cultivation has conditions suited for renewable energy generation.
143. The Constitution of India is a vital document. It lays out our rights and duties and places meaningful restrictions on our elected representatives. It is imperative on our part to educate ourselves about the Constitution. Therefore, every person must endeavour to place a copy of the Constitution in their home.
- Which of the following is an assumption required by the above passage ?
- Our elected representatives cannot be trusted.
  - People are more likely to read a text if it is placed inside their home.
  - The Constitution Framers were great visionaries.
  - None of the above
144. Rather than adopt conventional ways of water consumption, we should all start storing our water in copper containers so that we can get the benefits of copper intake. It is now well-proven that storing water in a container for 24-48 hours is very effective in transmitting some copper content into the water.
- Which of the following is an assumption required by the above passage ?
- It is safe to drink water out of a copper container.
  - We should drink adequate amounts of water every day.
  - Storing water in copper containers is one of the best ways to ensure that the requisite copper content reaches your body.
  - None of the above
145. “Mental-health issues and stress or high anxiety often go together. Finding an emotional release like painting allows a person’s mind to relax and let go of all the problems that contribute to a high-stress level. When people create something beautiful through painting, they stimulate the creative mind while relieving mental strain. A low-stress level leads to a happier, healthier lifestyle and helps improve overall mental health.”
- Which of the following is an assumption required by the above passage ?
- People can have a creative mind.
  - The act of painting involves expressing emotions.
  - Stress reduces the quality of life.
  - All of the above

146. **Principle** : An advocate is bound to accept any brief in the Courts or Tribunals or before any other authorities in or before which he proposes to practise at a fee consistent with his standing at the Bar and the nature of the case.

**Facts** : You are an advocate practising in the Supreme Court of India and specialising in criminal law. You are approached by a Pakistani national who has been convicted of serious terrorism and murder charges by the Delhi High Court. He wants you to represent him before the Supreme Court. He is willing to pay any fee you may quote. However, you have a serious moral objection to taking up this case since it concerns the security of the country.

Choose the most appropriate answer.

- a) You can refuse to represent the terrorist on account of your strong moral objection. It is unfair to force a lawyer to argue a case against his moral beliefs.
- b) You can refuse to represent the terrorist on account of your strong moral objection. It would be unfair to the client if his lawyer does not believe in his case strongly.
- c) You are under an obligation to accept the case because the principle makes no exceptions for advocates having moral objections.
- d) None of the above

147. **Principle** : No person accused of an offence involving commercial quantity of narcotic drugs shall be released on bail or on his own bond unless the court is satisfied that there are reasonable grounds for believing that he is not guilty of such offence and that he is not likely to commit any offence while on bail.

**Facts** : Michael is accused of possessing commercial quantities of cocaine (a narcotic drug), which is an offence. However, he has not yet been arrested by the police. He moves the relevant court for anticipatory bail, praying that he should not be arrested for the alleged offences. The Court finds a good case for grant of anticipatory bail; however, the Court is not ready to state that “there are reasonable grounds for believing that he is not guilty of such offence”.

Choose the most appropriate answer.

- a) The Court is not bound by the given principle, because the principle speaks of “release” of a person on bail, thus implying that it does not apply to cases of anticipatory bail.
- b) The Court is still bound by the given principle because it would be absurd to suggest that persons in custody and those not yet arrested are governed by different rules.
- c) The Court is not bound by the given principle because its language is only in the form of a recommendation. The Court is free to grant bail based on its own sense of fairness and justice.
- d) None of the above

148. **Principle** : The appeal by a candidate or his agent or by any other person with the consent of a candidate or his election agent to vote or refrain from voting for any person on the ground of his religion, race, caste, community or language, shall be a “corrupt practice”.

**Facts** : Ms. Tickoo, a candidate from the Krantikari Party, says to her voters: “Vote for me because you are all Christians and your interests will be protected by me.”

Choose the most appropriate answer.

- a) Ms. Tickoo is guilty of a corrupt practice because she has appealed to religion.
- b) Ms. Tickoo is not guilty of corrupt practice because she has appealed neither to her own religion nor to another candidate’s.
- c) Ms. Tickoo is not guilty of corrupt practice because the principle only applies to male candidates.
- d) None of the above.

149. There must be mandatory vaccination against communicable diseases.

**Argument 1** : Yes, the collective wellbeing of the population must override individual choice.

**Argument 2** : No, individuals must have agency over what they inject into their bodies.

**Argument 3** : No, this would lead to profiteering by vaccine manufacturers.

Choose the most appropriate answer.

- a) Only arguments 1 and 2 are strong.
- b) All arguments are strong.
- c) Only arguments 2 and 3 are strong.
- d) Only arguments 1 and 3 are strong.

150. Should there be a limit on the number of times an individual may be elected as a head of a state ?

**Argument 1** : Yes, it prevents concentration of power in a single individual for a prolonged time and reduces the possibility of misuse of power.

**Argument 2** : No, an incumbent individual will know how to best run the country, given their experience.

**Argument 3** : No, the population must be free to give the democratic mandate to the person of their choosing, even if they win multiple times.

Choose the most appropriate answer.

- a) Only argument 1 is strong.
- b) Only argument 1 and 3 are strong.
- c) Only argument 3 is strong.
- d) Only arguments 2 and 3 are strong.

# SOLUTIONS

---

1. (d) As given in the excerpt, the book is part of perfect for children learning to sound out words the I can read series. Also refer the lines: ".....is children eager to start reading on their own." and sentences" and ".....support success for children eager to start reading on their own."
2. (c) As given in the passage, I want to be a Veterinarian is a level one reader that helps children learn to read on their own. Thus, A-(ii) is correct. So, You Want to be a Veterinarian is suggested reading for aspiring veterinarians, their parents, and their mentors. Hence, B-(i) is the correct match. Thus, option (c) is correct.
3. (C) Succinctly means in a brief and clearly expressed manner. Thus, the correct synonyms are condensed, compact, brief, to the point.
4. (a) The On Being a Veterinarian Series provides insight on a different aspect of small animal veterinary medicine to help future veterinary doctors better prepare for the challenges of this career while So, You Want to be a Veterinari and describes colleges of veterinary medicine and their admission requirements, application procedures, curriculums, faculties, and facilities, and provides information that increases the odds of success in the admission process. Thus, this particular line is likely to appear in both books.
5. (d) Disciplinary specialities most likely refers to the various domains and avenues available to practitioners of veterinary sciences. Thus, it is likely to include aspects like sport medicine and rehabilitation.
6. (d) A glimpse of something is a brief experience of it or an idea about it that helps you understand or appreciate it better. Thus, (d) is correct.
7. (b) A small animal veterinarian refers to animals that usually serve the purpose of providing companionship. The other options are nowhere suggested in the excerpt.

8. (c) "Increasing the odds of success" broadly means that you manage your thoughts, emotions and actions in ways that stand in good chance of contributing to being successful.
9. (b) To "jump in the bandwagon" is to adopt an option because it is fashionable.
- 10.(C) The passage actually suggests the opposite, Refer the lines: "These are basic elements of therapy in general, but digital play therapy in particular is couched within the broader context of prescriptive play therapy..." The other options can be clearly inferred from relevant parts of the extract.
- 11.(d) Communicating in someone's language he essentially means addressing or responding to their needs and requirements.
- 12.(c) From the opinions expressed by Jessica Stone in the passage, we can infer that according to her, digital play therapy has to be regarded as an important part of "play therapy" because allows for communication through its mode of co-play.
- 13.(b) Refer the lines: "... I was listening to them. I was asking them questions. We were having conversations about what happened in the game, what quest they were working on; things that were important to them that prior to my entering their world, I couldn't participate in or even understand."
- 14.(c) If you are not a native user of something, it means that you are inexperienced/ an amateur in that particular domain.
- 15.(d) "Long story short" is used when you are explaining what happened in a few words, without giving all the details.
- 16.(a) The purpose of the passage is to present the relevance and importance of "digital play therapy".
- 17.(a) The speaker is basically accepting that she was forced to question and evaluate her own notions and beliefs. Thus, the tone is reflective.
- 18.(b) Disservice refers to any harmful action. In (not the context in which it has been used. It is suggesting a behaviour that will be unfair and unhelpful.
- 19.(c) Refer the lines: "... but from the accumulation of enough capital to make possible the largescale outlay needed to turn the inventions into functional fortunes."

20.(d) Option (a) - can be inferred from: "For the peasant, insecurity, impoverishment, and indebtedness followed."

Option (b) can be inferred from: "This fine b country..... is verging towards ruin."

Option (c) - can be inferred from: "The natives allege that, although they were often squeezed by the Mogul officers, and on all occasions were treated with utmost contempt...."

Thus, option (d) is the answer.

21.(c) The first paragraph is providing a chronological listing of events that establish the linkage between the industrial revolution in Britain and the establishment of British rule in India.

22.(b) Refer the lines: ".....turned the zamindars, who were originally tax collectors, into landowners with new rights to evict the peasants who cultivated the lands for not paying the revenues."

23.(b) The passage is analyzing the negative impact of the British rule on Indian economy and its masses. The opinions expressed in it render an 'economic report' unlikely. Thus, (b) is correct.

24.(d) The experiment clearly indicates that bees remember that blue means syrup and they fly to the blue and also that they can distinguish blue from red.

25.(d) The premise of the experiment renders both the options incorrect as none of them has any impact on the idea tested in the experiment.

26.(c) Refer: "But possibly it is the scents that attract the bees, or perhaps it is both color and scent."

27.(b) The correct idea would have been: The visible signs of festivities were inconspicuous in America.

28.(c) The last line clearly indicates that though far from perfect, the author was glad to have gotten a chance to celebrate a 'real' Christmas in Wiltshire.

29.(c) Anodyne means not likely to provoke dissent or offense; inoffensive, often deliberately so. Construed means to interpret (a word or action) in a particular way.

- 30.(a) Religious is an adjective that means relating to or believing in a religion. Travesty is a noun that refers to a false, absurd, or distorted representation of something. Temporarily is an adverb that indicates for a limited period of time; not permanently.
- 31.(a) Of the options given, only option (a) comes close to the ideas expressed in the passage. The author is essentially talking about the growing sense of political correctness and apprehension around all expressions of festivities associated with Christmas.
- 32.(b) Refer the lines: "When everything was over the next day, I heard people asking my mother, "Are they leaving today?" I thought they were referring to the guests." Thus, the narrator felt that the question was for the groom's party while the family members were referring to the bride, the groom, and his folks.
- 33.(c) In the context of the passage, the word relates to loud sounds that express happiness and joy.
- 34.(a) There is an underlying tone of sadness and sentiment in the narrative that renders the mood depressing and emotional.
- 35.(c) Solace refers to comfort or consolation in a time of distress or sadness. Repose is a state of rest, sleep, or tranquility.
- 36.(a) The given question is an example of tag question. A tag question is a combination of statement and mini question. It is usually asked to confirm something.
- 37.(a) 'An all time high' refers to a height that has never been achieved before. Therefore, (a) is the appropriate answer.
- 38.(c) To point out' something means to specify something' or 'to draw attention to something.
- 39.(b) Statement (i) can be corroborated from the first paragraph of the passage. Statement (iv) can be substantiated in the light of the 3rd paragraph.
- 40.(a) The given passage highlights the present I condition of India's marine exports. Since marine exports are at an all time high, option (a) appropriately captures the mood of the passage.
- 41.(b) Refer to the last paragraph of the passage where option (b) is mentioned.

- 42.(d) Option (d) is a possible conclusion if we consider the facts presented in the passage.
- 43.(a) The given phrase refers to the finishing touches provided by the workman.
- 44.(b) The given phrasal verb refers to assembling something.
- 45.(d) Refer to the first two sentences of the last paragraph for the answer.
- 46.(c) As per the passage, option (c) presents the correct order of sentences.
- 47.(c) Refer to the last sentence of the passage where the author mentions the benefits of hardwood.
- 48.(b) Option (b) can be inferred from the first sentence of the passage. Note how the author mentions that no less restrictive alternative would serve that interest.
- 49.(d) Refer to the last sentence of the passage where the author mentions the perils of inappropriate content in a library.
- 50.(c) The appropriate antonym of 'compelling' is weak.
- 51.(b) India's National Commission for Backward Classes is a constitutional body (123rd Constitutional Amendment Bill, 2017 and 102nd Amendment Act, 2018 in the constitution to make it a constitutional body under Article 338B of the Indian Constitution) under the Ministry of Social Justice and Empowerment, established on 14 August 1993. It was constituted pursuant to the provisions of the National Commission for Backward Classes Act, 1993.
- 52.(a) The Durand Line is the 2,640-kilometer (1,640-mile) border between Afghanistan and Pakistan. It's the result of an agreement between Sir Mortimer Durand, a secretary of the British Indian government, and Abdur Rahman Khan, the emir, or ruler, of Afghanistan.
- 53.(c) The 2021 AI Readiness Index, published by Oxford Insights, ranks 160 countries as to how prepared their governments are in the use of AI in public services. India is ranked at 51.
- 54.(b) World's First Unmanned Vessel named "Mayflower 400" is set to Navigate Across the Atlantic. It has been built by the marine research organization ProMare in collaboration with IBM. It will begin its transatlantic voyage on May 15, 2021, to track aquatic mammals, analyze plastic in the water, and study marine pollution. Mayflower 400 is a completely autonomous ship. It is a

15-m-long trimaran that weighs 9 tons. It is powered by Artificial Intelligence and the Sun's energy via solar panels. ProMare invested \$1 million along with global contributions in the form of technology from India, the United States, and Switzerland to build the ship. \$5.

- 55.(d) Union Defence Minister, Rajnath Singh and Union Highways Minister, Nitin Gadkari Inaugurated the Emergency Landing Facility on a National Highway in Rajasthan. This emergency landing facility has been constructed on the Satta-Gandhav stretch of National Highway (NH) 925A in Barmer, Rajasthan. This is the first time that a national highway (NH-925) will be used for the emergency landing of IAF aircraft. The project will cost Rs.765.52 crores under the Bharatmala Pariyojana.
- 56.(c) Dressed in red and blue, 'Spidey' is a fixture at protests against the military regime - and the subject of a new Guardian documentary. Violence and arrests will not deter Sudan's young activists from resisting the military who "stole our revolution", says one man who faces down the teargas and bullets in a blue and red superhero costume. Featured in a new Guardian documentary, "the 'Spider-Man' of Sudan", who cannot be named for his safety, has become a symbol of protests that began in October. Dressed in his increasingly frayed suit and mask he and other demonstrators confront teargas canisters, water cannon and often live bullets.
- 57.(a) After 396 years, the sun has set on the British monarchy's reign over the Caribbean island of Barbados, with a handover ceremony marking the birth of the world's newest republic. As the clock struck 12, the Royal Standard flag representing the Queen was lowered over a crowded Heroes Square in Bridgetown and Carol Roberts-Reifer, chief executive officer of the National Cultural Foundation, made the declaration of Barbados' transition to its new constitutional status. Barbados became a republic but will remain part of the Commonwealth is the true statement.
- 58.(d) The Quadrilateral Security Dialogue (QSD), colloquially the Quad (sometimes stylized as QUAD despite not being an acronym), is a strategic security dialogue

between Australia, India, Japan, and the United States that is maintained by talks between member countries. Canada is not a member country in the QUAD.

- 59.(b) The Guardian recently published an investigation into the world's first crypto cruise ship, Satoshi, that proved to be far from easy-sailing. The story is one of crypto enthusiasm that lead to disaster and perhaps predicts the fate of other crypto 'utopias' that are being envisioned by enthusiasts around the world.
60. (a) After the US, Canada has now moved to ban Chinese telecommunication giants Huawei and ZTE from its 5G networks in order to ensure the "long term safety of our telecommunications infrastructure", Following the steps of its partners -- including the UK, the US, Australia and New Zealand Canada decided to ban the two Chinese tech companies by the start of 2028. The five countries make up an intelligence- sharing arrangement named 'Five Eyes'. Pressure from the Five Eyes network has led to the ban of Chinese telecommunication giants Huawei and ZTE from its 5G networks.
- 61.(d) The Supreme Court of India declared the Act providing 10.5% internal reservations to the Vanniyar community in Tamil Nadu to be 'unconstitutional' because the Vanniyars do not constitute a class apart from other OBC categories and hence this goes against Articles 14, 15 and 16 of the Constitution of India. The Supreme Court upheld the striking down of the Tamil Nadu Special Reservation Act, 2021, which provided for an internal 10.5% reservation to the Vanniyar caste in educational institutions and government jobs within the existing quota for other backward classes (OBCs). A division bench of Justices L. Nageswara Rao and B.R. Gavai was hearing a plea filed by Tamil Nadu challenging a Madras high court judgment that had struck down the Act. The apex court upheld the Madras high court judgment, stating that the impugned law is ultra vires Article 14 and 16 of the constitution, saying, "We are of the opinion that there is no basis to treat Vanniyar as a separate group compared to others."
62. (d) South Korea won the Uber Cup 2022 by defeating China. South Korea regain the Uber Cup after 12 years with an historic comeback to defeat the defending champions China at the Impact Arena in Bangkok, Thailand. Re-live all the action as it happened.

- 63.(b) Neeraj Chopra became the first Indian ever to win a gold medal in an athletics event at the Olympic Games as he topped the men's javelin throw final in Tokyo. This was Neeraj's first appearance at the Olympics and he created history and reached where no other Indian has ever been. Chopra became only the second individual gold medallist from India and won the country a third athletics medal.
- 64.(a) The United Nations announced that Türkiye will replace the name Turkey, whenever the country is referenced. "Türkiye is the best representation and expression of the Turkish people's culture, civilization and values," Turkish President Recep Tayyip Erdogan said last December when his government released a memo about the name change. The rebranding may be related to Erdogan's apparent annoyance over the country's unflattering association with the bird. As the country's geopolitical role grows, Turkey has reportedly become more image-conscious, and Erdogan's sensitivity about how the country is perceived also likely ties into his nationalist tendencies.
- 65.(d) India has been placed at 10th spot in the global Climate Change Performance Index (CCPI) 2022 released by Germanwatch on the side-lines of the COP26. In 2020 also India was at 10th position. India has retained its position as the top 10 best-performing countries with higher climate performance for the third year in a row.
- 66.(d) Desmond Tutu was a South African Anglican bishop and theologian, known for his work as an anti-apartheid and human rights activist. He was Bishop of Johannesburg from 1985 to 1986 and then Archbishop of Cape Town from 1986 to 1996, in both cases being the first black African to hold the position. Theologically, he sought to fuse ideas from black theology with African theology. He justified discrimination against homosexuals and sought to differentiate that from apartheid.
- 67.(d) May 10, 1857 was a Sunday. The British officers at the Meerut cantonment in north India were preparing to attend church, while many other British soldiers were off duty. The Indian troops in the cantonment, already waiting for an opportunity to revolt against their foreign masters, seized the day. Almost 50 British soldiers, and other men, women and children were killed by the sepoys

and the crowds who soon joined the Indian soldiers. The revolt of 1857 is significant for various reasons. Most of its protagonists - Mangal Pandey, Rani Laxmibai, Kunwar Singh and many others - became the national heroes. It also came to be known as India's first war of independence. Chiranjit Lal did not play any role in the revolt of 1857.

- 68.(c) The Buddha and His Dhamma, is a treatise on Buddha's life and philosophy. It was the last work of Indian statesman and scholar B. R. Ambedkar. According to Queen (2015), the text is treated as scripture for those who follow Navayana Buddhism.
- 69.(d) On May 11, the journalists across the world were mourning the death of journalist Shireen Abu Alekh who was killed while she was on an assignment in the West Bank in Jenin. Her family confirmed that the 51-year-old Palestinian journalist was killed in a raid by the Israelis. While the journalist Shireen Abu Akleh was killed, another journalist Ali Al Samudi who was present with Akleh was also shot. Al Jazeera claims that the 51-year-old who was covering an Israeli refugee camp was shot in the face by a single bullet, despite wearing Arabic-language international radio press vest. Al Jazeera is the state-broadcaster of Qatar. It is based in Doha and operated by the media conglomerate Al Jazeera Media Network. The flagship of the network, its station identification, is Al Jazeera.
- 70.(d) India's men's badminton team managed to defeat the 14-time winners and 2021 champions Indonesia, which is the most decorated country in the tournament and secured their maiden Thomas Cup title. Indian men's team defeated Indonesia with a dominant 3-0 win in the final. For India, this was an incredible week for its badminton team as the country had never reached the finals of the world's most prestigious event before. Indian men had previously reached the Thomas Cup semis in 1952, 1955, and 1979.
- 71.(a) Timor-Leste on Friday was celebrating the 20th anniversary of its independence, achieved after almost a quarter of a century of violent military occupation by Indonesia and more than 400 years of Portuguese colonization. The capital, Dili, hosted a military parade Friday to celebrate this anniversary, the

day after veteran politician and Nobel Peace Prize winner Jose Ramos-Horta swore his position as president of the country after winning the elections last month.

- 72.(b) Savita Halappanavar was a dentist of Indian origin, living in Ireland, who died from sepsis after her request for an abortion was denied on legal grounds. In the wake of a nationwide outcry over her death, voters passed in a landslide the Thirty-Sixth Amendment of the Constitution, which repealed the Eighth Amendment of the Constitution of Ireland and empowered the Oireachtas to legislate for abortion. It did so through the Health (Regulation of Termination of Pregnancy) Act 2018, signed into law on 20 December 2018.
- 73.(d) The Nilgiri Biosphere Reserve is a biosphere reserve in the Nilgiri mountains of the Western Ghats in South India. It is the largest protected forest area in India, spreading across Tamil Nadu, Karnataka and Kerala. It includes the protected areas Mudumalai, Mukurthi, Nagarhole, Bandipur, Silent Valley National Park, and Aralam Wildlife Sanctuary, Wayanad, Karimpuzha and Sathyamangalam wildlife sanctuaries.
- 74.(d) Satyajit Ray was an Indian filmmaker who worked prominently in Bengali cinema and who has often been regarded as one of the greatest directors of world cinema. Ray was born in Calcutta (now Kolkata) to a Bengali family and started his career as a junior visualiser. Among the given options, Satyajit Ray is not associated with the film *Pyaasa* because *Pyaasa* is a 1957 film by Guru Dutt, co-starring himself alongside Mala Sinha, Waheeda Rehman, Rehman, and Johnny Walker.
- 75.(a) In 2018, Chintamani Shivdikar wrote "Papletwali" which became viral on YouTube. The song is adopted from a Koli folk tune. The Kolis are said to be the first inhabitants of Bombay, having arrived in the city nearly five hundred years ago. The fishing community settled in Koliwad across the city-in Worli, Colaba, Vasai, Juhu and Sion-in order to remain close to the sea, their principal source of livelihood. Indigenous tribals have inhabited Mumbai (Bombay) since the Stone Age. The Kolis and Aagri (a Marathi-Konkani people) were the earliest known settlers of the islands.

- 76.(c) The U.S. Food and Drug Administration has limited the authorized use of the Janssen COVID-19 Vaccine to individuals 18 years of age and older for whom other authorized or approved COVID-19 vaccines are not accessible or clinically appropriate, and to individuals 18 years of age and older who elect to receive the Janssen COVID-19 Vaccine because they would otherwise not receive a COVID-19 vaccine. After conducting an updated analysis, evaluation and investigation of reported cases, the FDA has determined that the risk of thrombosis with thrombocytopenia syndrome (TTS), a syndrome of rare and potentially life-threatening blood clots in combination with low levels of blood platelets with onset of symptoms approximately one to two weeks following administration of the Janssen COVID-19 Vaccine, warrants limiting the authorized use of the vaccine.
- 77.(b/c) The board of the Pulitzer Prizes has recently honored Ukrainian journalists for their "courage, endurance and commitment to truthful reporting" on the war between Russia and Ukraine. Statement 1 is true because Pulitzer Prize is awarded in music. Pulitzer Prize is series of annual prizes awarded by Columbia University, New York City, for outstanding public service and achievement in American journalism, letters, and music. Fellowships are also awarded. The prizes, originally endowed with a gift of \$500,000 from the newspaper magnate Joseph Pulitzer, are highly esteemed and have been awarded each May since 1917. Statement 2 is Not true because statement says that the Pulitzer Prize is not awarded in fiction but Pulitzer Prize is awarded in fiction, Joshua Cohen won the Pulitzer Prize 2022 for Fiction for his book 'The Netanyahus'. The story is inspired from the popular critic and professor Harold Bloom's personal experience of being a chaperone to Benjamin Netanyahu's father in the 1960s. so statement 2 is wrong. Statement 3 is Not true because statement says that the Pulitzer will designated Washington as its seat of Mas administration of prizes but the Pulitzer will be designated New York City as its seat of bor administration of prizes, so statement 3 is also so wrong. Answer must be B and C but there is as Das such option under the questions and we must objection for this question.

78. (a) Sandra Day O'Connor (born March 26, 1930) is an American retired attorney and politician who served as the first female associate justice of the Supreme Court of the United States from 1981 to 2006. She was both the first woman O nominated and the first confirmed to the court.
79. (c) Braille, universally accepted system of writing used by and for blind persons and consisting of a code of 63 characters, each made up of one to six raised dots arranged in a six-position matrix or cell.
80. (d) Nazanin Zaghari-Ratcliffe is an Iranian-British dual citizen who was detained in Iran from 3 April 2016 as part of a long running dispute between Britain and Iran. In early September 2016, she was sentenced to five years in prison after being found guilty of plotting to topple the Iranian government. While in prison, she went on at least three hunger strikes trying to persuade Iranian authorities to provide medical treatment for her health problems. She was temporarily released on 17 March 2020 during the COVID- 19 pandemic in Iran, but subject to electronic monitoring. Zaghari-Ratcliffe has always denied the spying charges against her, and her husband maintains that his wife "was imprisoned as leverage for a debt owed by the UK over its failure to deliver tanks to Iran in 1979."
81. (d) Option (d) can be inferred from the 1st sentence of the passage where the problems of democratic systems are discussed.
82. (d) Option (d) explains the scenario presented in the passage where the result of one survey was available while the other wasn't.
83. (b) Both the persons agree that data protection is important. The fact that data protection can be developed means that it is important.
84. (c) The 1st person says that lockdowns cause difficulty for people while the 2nd person says that a lockdown severely affects business. So, option (c) is true.
85. (d) Both the conclusions don't follow from the given statements.
86. (c) Option (c) is the correct answer as the suit I can be filled in the city of Y's residence or in the city of X's residence, i.e., either Calcutta or Delhi.

- 87.(b) Option (b) is the correct answer as the agreement between the parties involved bribery which is an illegal act and therefore it is not contract as it is not enforceable by law.
- 88.(c) Option (c) is the correct answer as it has been mentioned that 'All lawyers are pleaders' and since X is a lawyer who's pleading his own case, he is a pleader.
- 89.(c) Option (c) is the correct answer as non-submission of homework has not been categorized as an offence in the question, therefore no sufficient information is given to determine whether X has committed an offence
- 90.(a) Option (a) is the correct answer as it has been stated that 'Yummilicious Restaurant' is a trademark and therefore if it is registered, copying it would be an infringement.
- 91.(d) I states that sports are essential. The concept of essential is nowhere in the passage. Hence I cannot be concluded.  
II cannot be concluded since it is mentioned that sports help to maintain a higher level of mental health. That does not mean that sports players never suffer from deteriorating mental health. Thus (d) is the correct answer.
- 92.(d) The passage mentions that videogames do have violent content. Thus it cannot be concluded. The passage mentions that numerous studies have already been conducted. It does not speak of the quality or lack of it in these studies. Hence II cannot be concluded.
- 93.(b) II can be concluded since the very first line mentions that advocates are barred from advertising themselves.  
I cannot conclude as it goes beyond the scope Thus (b) is the correct answer. (d)
- 94.Both I and II cannot be concluded since they go beyond the scope of the given passage. The fact that 75% is occupied is not mentioned in the passage. Also the passage speaks of educational institutions in particular. This negates I. I cannot be concluded since the question of assessments does not arrive based on the information provided in the passage. Thus (d) is the correct answer.
- 95.(c) The passage mentions that the post- Chernobyl era has paved way for East-West collaboration on developing a culture of safety. Thus (c) can be inferred from the passage.

96. (c) The passage states that the Japanese manufacturers aim to introduce a robust demand for hybrid cars first in India so as to localise the necessary parts and then introduce electric cars. This would suggest that (c) is a correct inference. The other options go beyond the scope of the given passage.
97. (a) If I was implicit then the situation would not have arrived whereby employees are demanding flexibility. II is implicit since the statement mentions that the risk of not being flexible is that talented employees will resign. This makes III implicit as well. Thus (a) is the correct answer.
98. (b) The passage mentions '...wishes to improve their chances of leading a healthy life'. This makes (b) the correct answer.
99. (d) Option (d) is the correct answer as X's claim will fall under clause 1 by virtue of an earthquake being a natural disaster and the cause of breach on contract on part of X.
100. (c) Option (c) is the correct answer and the suit can be filed in either Delhi or Calcutta as X's resided in Delhi and the dispute arose in Calcutta.
101. (b) Refer to the Venn diagram.
102. (d) Refer to the Venn diagram.
103. (a) Refer to the Venn diagram.
104. (b) Refer to the Venn diagram.
105. (c) Refer to the Venn diagram.
106. (b) is the correct option. Refer to the opening line of the passage. The entire passage counters the assumption that auction telecom services generate more revenue.
107. (c) The entire passage talks about insomnia and how it disturbs our mental and physical health. Option (c) states the correct assumption as the passage discusses the events that lead to long term and short term sleeplessness.
108. (b) Refer to, "Now, just 10 million bases or letters of human DNA out of roughly 3 billion, are unknown." This makes option B the correct assumption. Option (d) is a close option but it is incorrect because it has already been stated in the passage, hence not an assumption.

109. (d) I is incorrect because it is not related to the given argument. Both II and III follow.
110. (c) Only I is implicit. II is not implicit because we do not know whether food will be kept or not. It does not hold true.
111. (c) Option (c) is the correct answer as it has been stated in the principle that an advocate is bound to accept any brief at a fee consistent with his standing at the Bar and the nature of the case and no mention of morality is found in the principle, therefore one has to accept the case.
112. (a) Option (a) is the correct answer as the principle only talks about a normal bail and not anticipatory bail, hence the court would not be bound by the said principle.
113. (b) Option (b) is the correct answer as Ms. Tickoo in her statement merely stated a fact about the religion of the electors and neither appealed to her own religion nor to another candidate's.
114. (a) Other than argument III which talks about profits, other two arguments follow.
115. (b) Arguments I and III follow. Yes, it is true if someone stays at power for a long time, corruption will enter the scenario. Similarly, choosing a representative is a democratic process. II is incorrect as it is vague.
116. (c) Refer to, "While electrification and the deployment of renewables can go a long way, for some sectors this will not be enough. Cement and steel manufacture, for instance, cannot be simply electrified and powered by renewables." This makes C the correct option.
117. (d) None of the conclusions are valid. Refer to "The cloud-burst caused extensive damage to roadways around the town, making them unsuitable for heavy vehicles such as trucks and buses carrying more than 20 people."
118. (d) None of the conclusions are valid. From the given information we cannot say that ayurvedic is better than allopathy. Whether ayurveda is a neglect science or not it cannot be determined.

119. (b) From the given passage we can say that there are three alternative ways to be successful in life. Only one of them mentions hard work. Hence (b) is the correct answer.
120. (d) I contradicts the given argument. II is incorrect as which is punishable and which is not has not been mentioned.
121. (a)
122. (d)
123. (a)
124. (c) Refer to, "Most who succeed in this world are people who get up and look for the circumstances they want, and if they cannot find them, they make them." This makes option (c) the correct answer.
125. (b) Refer to, "...owing to which they can charge lower prices for products than brick-and mortar stores which have to incur such costs." This makes only option (b) correct. Option (c) is more of an assumption than a conclusion.
126. (b) Refer to the Venn diagram.
127. (b) Refer to the Venn diagram.
128. (b) Refer to the Venn diagram.
129. (b) Refer to the Venn diagram.
130. (a) It is evident that speed post will save time. Therefore, option (a) is correct.
131. (d) Refer to, "...sees tech companies as giants with trillion-dollar market values and global networks. Cue renewed regulatory efforts to undermine their dominance. Shortly after the EU agreed stringent legislation to regulate Big Tech, the UK this week set out details of its plan. Such moves are a response to Big Tech's competition-stifling scale. Amazon will account for an estimated 39.5 per cent of the US e-commerce market this year, according to research." This makes option (d) the correct answer.
132. (d) Refer to, "area that can be better utilised for the generation of renewable energy and for furthering the electric vehicles adoption programme in the country, according to a new report." This makes (d) the only correct option.

133. (b) "Therefore, every person must endeavour to place a copy of the Constitution in their home." This makes it clear that one reads Po something when it is available at home.
134. (a) the entire passage is based on the assumption that it is okay for the human body to intake copper. Hence (a) is the correct assumption. (c) is incorrect because it states a fact from the given extract.
135. (d) All the assumptions are required for the given extract to stand.
136. (d) "Two trials organized by a leading pharmaceutical company for its drug 'X', the first Alzheimer's drug approved in almost two decades, were among those with the lowest Black representation. Only 19 people, or 0.6%, of 3,285 participants in its two final-stage trials identified themselves as Black." Hence (d) is the correct inference.
137. (b) Option (a) has V and W along with X, which violates the condition that if V gets an ice-cream bar, W and Y must also get an ice-cream bar, as only three ice cream bars are purchased and one bar goes to one person.  
Option (b) has W and Y along with X, which may be a possible combination as it does not violate any of the given conditions.  
Option (c) has W and Z along with X, which violates the condition that if Z gets an ice-cream bar, then X cannot get an ice-cream bar. Option (d) is None of the above, which is ruled out, as option (b) is possible.
138. (c) Option (a) has Music, English, Maths, Social Studies, which violates the condition that Science must be scheduled immediately after Maths on any day.  
Option (b) has Science, English, Music, Social Studies, which violates the condition Social Studies cannot be immediately followed by Music and Music cannot be immediately followed by Social Studies.  
Option (c) has Social Studies, English, Maths, Science, which may be a possible combination.  
Option (d) has Maths, English, Science, Social Studies, which violates the condition that Science must be scheduled immediately after Maths on any day.
139. (c) Option (a) has Badminton (Monday), Tennis (Tuesday), Cricket (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday),

Badminton (Sunday), which violates the condition that Badminton cannot be played on the day immediately before or immediately after the day on which tennis is played. Here. Badminton is played on Monday and Tennis on Tuesday.

Option (b) has Badminton (Monday), Football (Tuesday), Tennis (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday), Basketball (Sunday), which violates the condition that no sport can be played for two consecutive days. Here Basketball is played on two consecutive days.

Option (c) has Badminton (Monday), Football (Tuesday), Tennis (Wednesday), Football (Thursday), Cricket (Friday), Basketball (Saturday), Cricket (Sunday), which may be a possible combination as it does not violate any conditions.

Option (d) is None of the above, which is ruled out, as option (c) is possible.

140. (b) Option (a) has Classroom, Auditorium, Dining Hall, Common Room, Library, Meeting Room, Hostel on floors 1 to 7, which violates the condition that the Library is either on Floor 1 or on Floor 7.

Option (b) has Classroom, Dining Hall, Auditorium, Common Room, Meeting Room, Hostel, Library on floors 1 to 7, which may be a possible combination as it does not violate any conditions.

Option (c) has Classroom, Meeting Room, Dining Hall, Common Room, Hostel, Auditorium, Library on floors 1 to 7, which violates the condition that the Meeting Room is exactly one floor lower than the Hostel.

Option (d) has Library, Dining Hall, Common Room, Meeting Room, Hostel, Classroom, Auditorium on floors 1 to 7, which violates the condition that the Common Room is on Floor 4.

141. (d)

142. (c)

143. (d) Statement II can be inferred in the light of 2nd and 3rd sentences of the passage. Statement III can be inferred from the passage as well. Apart from black money, there may be other sources of funding for terrorist activities. So, statement I cannot be inferred.

144. (d)

145. (c)

146. (a) Option (a) is the correct answer as the debt of X became due on March 17, 2017 and he filed a suit for recovery of money on March 1, 2022. Since more than 3 years have elapsed the suit would be barred by limitation.
147. (c) The parameter of being 'best' is reflected in 3. It directly considers the player's output within the game. 1 is incorrect since it is all about externalities. 2 is incorrect since changing teams has nothing to do with one's greatness. Thus (c) is the correct answer.
148. (a) (b) is definitely incorrect since Person 2 actually showcases the educational qualities novels containing racism may project.  
(a) is correct as both agree on racist content in some novels.  
Thus (a) is the correct answer.
149. (a) Since flavanol helps to maintain blood pressure, (a) strengthens the statement.
150. (a) The passage mentions that data inputted by human handlers containing racism and bias can impart the AI with these bad qualities. Thus (a) is a valid assumption.
