## ADMISSION GUIDANCE Series

# NEET PG

## Syllabus

The National Medical Commission (NMC) is the official body that prepares the syllabus for the National Eligibility cum Entrance Test for Postgraduate, NEET PG. The syllabus of NEET PG contains subject-wise topics to be asked in the examination and is prepared based on Pre-Clinical, Clinical, and Para-Clinical subjects taught in the [MBBS](#) curriculum.

The syllabus includes subjects like Anatomy, Physiology, Paediatrics, Biochemistry, Pharmacology, Microbiology, Pathology and others. Each subject in the [NEET PG syllabus](#) is divided into various topics and is based on Graduate Medical Education (GME) 2018. To ace the exam, aspirants must study the entire NEET PG syllabus thoroughly,

## NEET PG syllabus

The syllabus of NEET PG consists of topics/subjects studied by the graduates during their MBBS course degrees. The entrance exam is further divided into three parts: Part A, B, and C. The summary of subjects under each phase is additionally mentioned below.

Part A (Phase I)	Part B (Phase II)	Part C (Phase III)
Pre-clinical subjects	Para-clinical subject	Clinical subject

### NEET PG syllabus- Phase-wise

Phase I - Pre-clinical subjects	<ul style="list-style-type: none"> <li>• Anatomy</li> <li>• Physiology</li> <li>• Biochemistry</li> </ul>
Phase II - Para-clinical subjects	<ul style="list-style-type: none"> <li>• Pathology</li> <li>• Pharmacology</li> <li>• Microbiology</li> <li>• Forensic Medicine</li> <li>• Social and preventive medicine</li> </ul>
Phase III - Clinical subjects	<ul style="list-style-type: none"> <li>• General Medicine including dermatology, venereology, and psychiatry</li> <li>• General surgery including orthopaedics, anaesthesia, and radio diagnosis</li> <li>• Obstetrics and Gynaecology</li> <li>• Paediatrics</li> <li>• ENT</li> <li>• Ophthalmology</li> </ul>

**NEET PG syllabus: Subject-wise distribution of questions**

Subject	Number of questions in NEET PG
Phase I - Pre-clinical subjects	
Anatomy	17
Physiology	17
Biochemistry	16
Phase II - Para-clinical subjects	
Pathology	25
Pharmacology	20
Microbiology	20
Forensic Medicine	10
Social and preventive medicine	25
Phase III - Clinical subjects	
General Medicine including dermatology, venereology, and psychiatry	45
General surgery including orthopaedics, anaesthesia, and radio diagnosis	45
Obstetrics and Gynaecology	30
Paediatrics	10
ENT	10
Ophthalmology	10
Total number of questions in NEET PG	200 questions

### **Important topics for NEET PG For preclinical subjects**

1. General Anatomy: Especially topics related to the musculoskeletal system, nervous system, and blood supply.
2. Physiology of Blood and its constituents.
3. Biochemistry of essential biomolecules like carbohydrates, lipids, proteins, and enzymes
4. Endocrinology: Focus on hormones and their functions.

### **For paraclinical subjects**

1. Pharmacology: Drug classifications, mechanisms of action, and important drugs in different therapeutic categories.
2. Pathology: General and systemic pathology, understanding disease mechanisms.
3. Microbiology: Bacteriology, virology, mycology, and parasitology.
3. Community Medicine: Concepts of epidemiology, biostatistics, and important public health programs.
5. Forensic Medicine: Basics of forensic science, legal aspects, and medicolegal cases.

### **For Clinical Subjects**

1. Medicine: Common medical conditions, especially cardiovascular, respiratory, and gastrointestinal disorders.
2. Surgery: Basics of surgery, surgical instruments, and common surgical conditions.
3. Obstetrics & Gynecology: Pregnancy-related topics, complications, and gynaecological conditions.
4. Paediatrics: Pediatric disorders and developmental milestones.
3. Ophthalmology: Eye anatomy, common eye diseases, and vision-related topics.
4. Otorhinolaryngology (ENT): Ear, nose, and throat disorders.
5. Orthopaedics: Common orthopaedic conditions and fractures.
