A NOTE TO THE STUDENT

The Common University Entrance Test popularly abbreviated as CUET is one of the most sought-after entrance tests for admission to 150+ universities in India. The CUET examination for admissions to Undergraduate courses is conducted by the National Testing Agency (NTA) and occurs once per year. The NTA has been conducting the CUET UG examination since 2021. Admissions to Undergraduate degrees at all the 54 prestigious Central Universities in India are also done solely through the CUET UG examination.

The CUET UG examination 2024 is divided into three sections namely the language section, the domain-specific section and the General Test section. The language section is further divided into two sections A and B with A having a provision of 13 languages and followed by B with 20 languages (languages to be attempted are other than the ones in A). Combined, a total of 50 questions will be asked in the language section with the candidate requiring to answer 40 among them. The second section is the domain-specific section as per the choosing of the candidate. There are a total of 27 domain-specific subjects out of which a maximum of Six domains are to be chosen. Similar to the language section, the candidates are mandated to answer 40 questions out of 50 asked in this section. All the MCQs asked under this section are based on the NCERT syllabus. The last section of the CUET UG examination is the General Test This section consists of various questions from topics such as Quantitative Reasoning, Logical Reasoning and Analytical Reasoning. The candidates are asked 60 questions under this section and are required to answer 50. All the sections are combined to find the total mark of the candidate. The maximum mark of the CUET UG Examination is 800 with 5 marks awarded for each right answer and one more deducted for each incorrect answer. There is no mark awarded or deducted for unattempted questions.

Just like any other entrance examination, the candidate requires focused and dedicated efforts to crack the CUET UG examination. This is because the competitive nature of the CUET UG examination increases per year. The candidates are also advised to take numerous mock tests of various difficulty levels to assess their preparation level and alter their strategies. The candidates should also ensure that they complete the entire syllabus before the examination so that they have ample time to practice mock tests. They should also regularly check the NTA website for any new updates from the conducting body regarding the CUET UG examination.

ABOUT THE eBOOK

Through the contents of this ebook, the candidates can learn and practice Multiple Choice Questions from the following domains and their corresponding syllabuses.

Ebook 1 - Geography: Crucial Multiple Choice Questions (MCQs) encompassing Accounting for Not-for-Profit Organizations and Partnership Firms, as well as Human Geography focusing on the Nature and Scope, People, Human Activities, Transport, Communication and Trade, and Human Settlements are meticulously curated to facilitate comprehensive exam preparation.
