I had an amazing experience with Careers360, especially my counsellor Ms. Nisha. She has been really helpful throughout my journey. She explained the whole counselling process to me in a very detailed manner, answered all of my queries even the stupid ones, calmly. She has been available on call throughout the process (which has been very taxing btw) and has given me the best advice she could give according to my preferences. I'm really grateful to her and to Careers360 and I'm glad I chose them.

I had a wonderful experience with counsellor Nisha Mam. To start with counselling I was not sure to take advice from career 360. But when Nisha was assigned to me I was absolutely happy with my decision .

She helped at every stage of counselling , asking our preferences and choices and giving back honest opinion abt the same . Nisha was just like family ,the way we discuss in family abt choosing college. Telling us all the pros and cons of choosing a college. I had talked with many counsellors but they don't themselves have knowledge abt counselling , but Nisha is perfect in her work. She has knowledge about all aspects of counselling. With the kind of experience I had interacting with Nisha ,yes I can surely recommend career 360 for counselling
