- A) 110 Indian participants are staying in the Olympic Village.
- B) Doctors are to take part in Olympic Games.
- C) Indian dishes will be supplied to Indian participants.
- D) Coaches will give training and guidance to the player.

Correct Answer : Option D

Read the passage and answer the question

The Olympic Games in Paris have officially begun. More than 110 participants are at the Olympic village as part of the Indian contingent. Along with them is a team of coaches, doctors, physiotherapists, psychologists and a nutritionist. Nutrition plays a major role in the performance of the sports persons. They will have to consume a well- balanced meal and try to avoid having something new. When sports persons are in a foreign country, there may not always be dishes they have eaten previously. So they need guidance. If there is no Indian alternative, the nutritionist can suggest a close alternative. The Olympic village has four dining districts: World, French, Halal, and Asian. These halls will be functional round the clock, but the participants will not be allowed to cook anything within the venue.
