Overall Site	Add below mention text css to improve text visibility -webkit-font-smoothing:antialiased; -moz-osx-font-smoothing: grayscale; font-synthesis: none;
	Complete area is not aligned with the header (total width should 1296px)
	Dropdown, search field - match overall design with the UI
	Download arrow animation missing in all " Study Material " section
	Left section should be sticky (refer prototype)
Left Navigation Expanded Version	Active tab icon color should be blue
	Hover effect incorrect - refer prototype
	If the tab is already active, hover effect should not come on hover "Recommended Tools" break in two lines
	"Upgrade Now" CTA hover effect missing
	collapse arrow button hover missing
Left Navigation Collapsed Version	expand arrow button hover missing
	Hover effect incorrect - refer prototype
	If the tab is already active, hover effect should not come
	Active tab icon color should be blue
	If the tab is already active, hover effect should not come tool tip missing on hover
Home Page	Extra space before "Welcome, User!" incorrect font size 20, line height 23, letter spacing -2%
	"Here's what's happening in your counselling journey" font color incorrect
	4 card - check the overall height with the design including padding and margin
	4 card - remove drop shadow in default case
	4 card - shadow will come only on hover when the card is clickable (refer prototype)
	4 card - other cases not visible
	Prediction Summary Block - Match overall design for padding, margin, line height as current developed design height is 360px (actual height is 292px)
	Prediction Summary Block - View Report CTA missing
	Webinar Block - Match overall design for padding, margin, line height as current developed design height is 360px (actual height is 292px)
	Webinar Block - Image not visible
	Webinar Block - CTA hover effect different
	Latest Announcement - Match overall design for padding, margin, line height, icon not visible, full card should be clickable, hover effect missing
	Study Material - Card not prepare properly (other issues are same as other card margin and padding)
Overall page sticking when scrolling from bottom to top
